Transport for NSW is upgrading electrical infrastructure as part of the Power Supply Upgrade Program, which is designed to meet expected power requirements for Sydney’s future rail network and new fleet of air-conditioned trains.

Upcoming work

Between 7am and 5pm on Thursday 16 and Friday 17 April, temporary site facilities and materials will be delivered into the rail corridor via the access gate on Railway Terrace near St Albans Road, Schofields.

Weekend work

Between 6am and 6pm on Saturday 18 and Sunday 19 April, we will be working inside the rail corridor at Schofields to install safety screens on the Westminster Street Bridge and the footbridge between Bridge Street and Advance Street. Access into the rail corridor will be via the rail gate on Riverstone Parade, Riverstone.

To ensure the safety of our customers and staff, this work will be completed during a scheduled Sydney Trains trackwork weekend. Train services will be affected during weekend work. Please contact Transport Info on 131 500 or visit transport.nsw.info for information about replacement bus services.

Traffic changes

There will be a single lane closure on the Westminster Street Bridge between Railway Terrace and Bridge Street, Schofields between 6am and 6pm Saturday 18 and Sunday 19 April.

Traffic delays may be experienced. Traffic control and electronic sign boards will be in place to direct motorists.

Construction equipment

Equipment to be used includes cherry pickers, work vehicles, light towers and various hand and power tools.
Transport for NSW is committed to minimising noise impacts on the community. We switch off equipment when it is not being used, place equipment as far away from properties as possible and monitor our work activities to make sure noise levels are being managed effectively.

**Keeping the community informed**

If you would like to speak with the project team about these works, please contact us via the details provided below. Thank you for your understanding during this work.
