

## Summer and night works at Glossop Street, St Marys from 23 December 2021

Works are continuing to widen Glossop Street from two lanes to three, between Phillip Street and Hobart Street in St Marys. This work will provide a dedicated left turn slip lane to improve access into the rail corridor for maintenance and construction vehicles, and to facilitate construction of the Sydney Metro – Western Sydney Airport.

The Glossop Street project started in September 2021 and is due for completion in March 2022. The project will deliver:

- widening of the northbound carriageway from two lanes to three with a dedicated slip lane for vehicles to access the rail corridor
- upgrading the road median and footpaths
- establishing a project site compound

### What happens next?

Works will continue, except for the holiday closure period as outlined below, and include:

- pavement work on the road median
- realigning the kerb on the western side of Glossop Street
- installing new stormwater drainage in the footpath area on the western side of Glossop Street
- adjusting existing and installing new utilities

**Night works** are planned to take place at this site between **Sunday 9 January** and **Thursday 3 February** to complete pavement work on the road median and electrical changes.

**Equipment used** for this work includes but is not limited to; a 3 tonne tipper truck, road surface milling machine, rollers, bob-cat, pressure-washer (water-blasting), and a bogie truck.

## What to expect

There will be temporary traffic changes during our work hours to ensure the work zone is safe. This may affect travel times. Please keep to speed limits and follow signs and traffic controllers' directions.

- Our work will generate some noise and our team will minimise impacts where possible including completing noisier activities by 12 midnight.
- Access to driveways and buildings will be maintained at all times.
- There will be an increase in light and construction vehicles near the work sites.
- There will be minor traffic disruptions and traffic control measures will be in place.

## Our work schedule

Our standard work hours will be **Monday to Sunday from 7am to 6pm**. On weekends, high noise activities will only take place on Saturdays between 8am and 1pm.

Our night work hours will be **Sunday to Thursday nights from 8pm to 5am**. Night works will not take place on Friday and Saturday nights except on **Saturday 15 January from 8pm to 8am**, when a power pole will be installed near the railway during a planned rail upgrade in order to ensure the safety of all personnel.

These works will be undertaken in accordance with Public Health Orders and a COVIDSafe plan is in place. Please note the weather and site conditions may impact our planned dates of work and require some scheduling flexibility or additional days' work. We will continue to keep the community informed of construction plans and provide a project update in February 2022.

## Construction during Christmas, New Year and Australia Day

**Christmas and New Year:** construction sites will close over the Christmas and New Year holiday period from 6pm Thursday 23 December 2021 until 7am Tuesday 4 January 2022.

**Australia Day:** construction sites will be closed for the Australia Day public holiday from 6pm Tuesday 25 January until 7am Thursday 27 January 2022.

When the construction site is closed, temporary concrete barriers will remain on the west side of Glossop Street and the compound will be closed to the public to ensure it is secure and maintained.
