

Transport Access Program

St Peters Station Upgrade

COMMUNITY NOTIFICATION

OCTOBER 2021

The St Peters Station Upgrade is part of the NSW Government's Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with disability, limited mobility, parents/carers with prams, and customers with luggage.

Project update

During September we excavated material from all platforms and started to build the foundations for the new lifts. A platform timber hoarding has also been installed to create separate work zones from the live platforms.

Out of hours work during October

We are working two weekends this month, with a third weekend as contingency.

From **11.59pm Friday 8 October to 4am Monday 11 October** we will be working 24 hours a day on the station platforms. Work on platforms 1 and 2 will include:

- Excavating and concreting work for new lifts and canopy footings
- Relocating and installing services and drainage
- Removing material from the site via track to our Concord Street site compound and then by road.

In case of inclement weather or delays during this weekend, we will work from **11.59pm Friday 15 October to 4am Monday 18 October**.

From **11.59pm Friday 22 October to 4am Monday 25 October** we will be working 24 hours a day on the station platforms. Work on platforms 1 and 2 will include:

- Releveling of the platform surface; asphalt removal, delivering base materials and re-asphalting platforms
- Removing material from the site via track to our Lord and Concord Street site compound and then by road.
- Asphalt supply via track from Concord Street site compound to St Peters Station.

This work will be carried out during a temporary Sydney Trains shutdown when services run from platforms 3 and 4 only. For up-to-date information about bus replacement services during these times please visit transportnsw.info or call **131 500**.

Upcoming work

We will continue the foundation work for the new lifts and canopy covers. Work during the day includes:

- Installing new site offices and tree trimming at the Concord Street site inside the rail corridor

For more information call **1800 684 490**, email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/projects/current-projects/st-peters-station-upgrade

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

- Excavating and concreting lift and canopy foundations and lift walls
- Landscaping on Railway Lane.

Construction hours

**Change of standard construction hours: The NSW Government has introduced extended operating hours for construction sites to support the industry during the evolving COVID-19 situation, with sites now able to operate on weekends and public holidays. The standard construction hours at this station are 7am-6pm Monday to Sunday, including public holidays.*

What to expect

The St Peters Station Upgrade team is committed to follow the advice of the NSW Government in accordance with COVID-19 safe practices with the following activities:

- Plant and machinery access to the rail corridor will be via the rail access gate on Concord and Lord Streets
- Intermittent deliveries of work material and machinery to **Lord Street and Concord Street** and concrete pumping from **Goodsell Street**
- Traffic control will be in place to direct traffic and pedestrians when needed
- Stockpiling and removal of materials from the station, **Council Street** and **Concord Street**.
- Equipment used throughout September include: excavator, vacuum truck, road saw, tipper truck, concrete truck and pumps, dump truck, handheld breaker, circular saw, chainsaw, chipper, task lighting, lighting towers generators, high-rail vehicles and various hand and power tools.

Work location

What you may notice

Some of this work may be noisy at times, however we will make every effort to minimise the impact to nearby residents and businesses. Wherever possible, measures to reduce noise will be implemented, including turning equipment off when not in use, positioning equipment as far away from residences as possible, monitoring noise, using non-tonal reversing beepers and stopping work for respite periods.

We apologise for any inconvenience and thank you for your patience while we carry out these works.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
