

Transport Access Program

Beecroft Station Upgrade

Project Update

March 2021

Artist's impression of the new lift location looking from Wongala Crescent, subject to detailed design

The Beecroft Station Upgrade is underway with steel assembly work in the Wongala Crescent Commuter Car Park commencing in late February. Work will continue in March and include:

- piling, concrete and excavation work for the lift well foundations in the old booking office for the new lift (including small dump trucks removing spoil intermittently via the underpass)
- concrete and excavation work for the lift well foundation at Wongala Crescent Commuter Car Park
- assembly of structural steel for the lift within the Wongala Crescent Commuter Car Park, and craning the lift shafts into place during weekend work.

Equipment to be used includes dump trucks, excavators, a crane, concrete trucks/pumps, delivery trucks, truck-mounted crane, power tools and hand tools.

Weekend work – Friday 12 to Sunday 14 March 2021

Weekend work will be carried out continuously from **10pm on Friday 12 March until 7pm on Saturday 13 and Sunday 14 March 2021** during a scheduled Sydney Trains trackwork weekend when trains are not running and the station is closed. The work will include:

- installing temporary hoarding on the platforms
- piling and excavation work on the platform to create a new canopy
- installing the lift shaft in the old booking office
- working to extend the old booking office.

For more information call 1800 684 490.

Email projects@transport.nsw.gov.au or visit www.transport.nsw.gov.au/beecroft.

For urgent enquiries or complaints regarding construction activities, please call 24 hours 1800 775 465

Equipment to be used includes piling rigs, excavators, dump trucks, cranes, delivery trucks, elevated work platforms, power and hand tools. All equipment will be positioned as far away from residential areas as possible and breaks will be used to provide respite during noisy work.

As the station is closed, the **pedestrian underpass will be closed from 7am Saturday 13 March 2021 to 10pm Sunday 14 March 2021**. A temporary detour using Copeland Road (to the south of Beecroft Station) will operate during the work.

Both **commuter car parks will be closed** throughout the weekend work for the safety of workers, pedestrians and motorists. Signage will be in place to assist customers.

For information about rail replacement buses during the scheduled trackwork, please visit transportnsw.info or phone **131 500**.

Temporary changes to Wongala Crescent Commuter Car Park

Up to 30 parking spaces will be closed until Monday 22 March 2021 to allow for construction vehicles including a large crane, steel deliveries and steel assembly to prepare for upcoming Wongala Crescent lift construction weekend work in mid March 2021.

Please use the remaining parking spaces within the car park, or park within the Sutherland Road Commuter Car Park. Traffic control and signs will be in place to help pedestrians and vehicles with the temporary changes.

Station toilet closed – temporary toilet

The existing toilet in the station building will be temporarily closed from **Saturday 13 March 2021 until mid-June 2021** while it is upgraded to a family accessible toilet. A temporary unisex toilet will be available for use from **Monday 15 March 2021** at the Sutherland Road entrance to the pedestrian tunnel. The temporary toilet will be available during station opening hours. Signage will be in place to help with these temporary changes.

Ongoing station access changes

The stairs and ramp between Wongala Crescent Commuter Car Park and the station will remain closed until **late 2021**, to allow for construction of the new lift to be carried out. Customers can continue to access the station via the ramp from Wongala Crescent, and the pedestrian underpass tunnel.

Construction hours

Standard construction hours are from **7am to 6pm every day**, including public holidays. We understand extending construction hours to include weekends and public holidays may cause disruption, but all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Keeping the community informed

The community will be kept informed with regular project notifications and information via the project website: transport.nsw.gov.au/beecroft. For further information on the project please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au. For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
