

Construction work continuing at Schofields Commuter Carpark from 1 December

December 2021

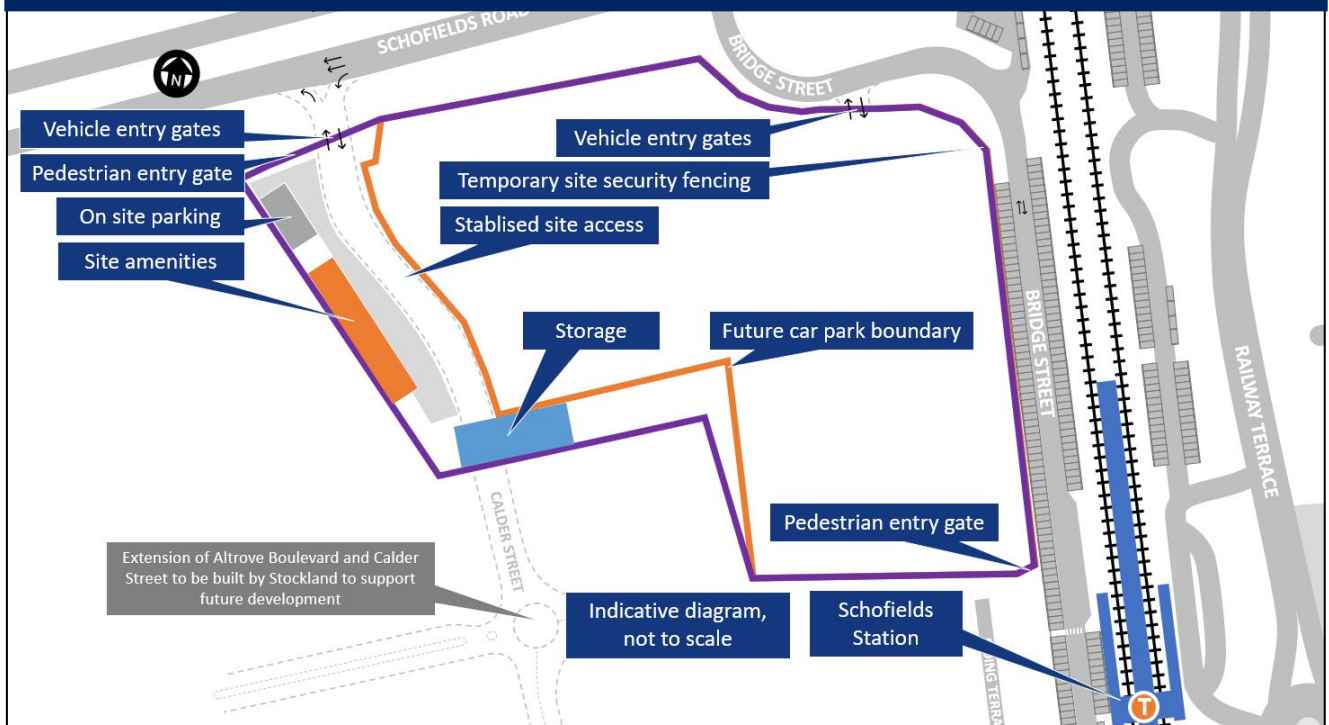

Transport for NSW is delivering approximately 700 additional commuter parking spaces at Schofields to provide the community with more convenient access to public transport and reduce congestion on our roads. The car park is expected to be open to commuters in mid-2022.

From 1 December 2021 to 31 January 2022, we will be:

- delivering plant and equipment to the site
- installing site fencing and amenities, service connections, security and site accesses
- establishing environmental control and access for construction vehicles
- removing approved vegetation and trees on the site and on Bridge Street
- demolishing existing hard landscaping
- digging to level the site
- removing waste materials from the site

These works are in line with the current Public Health Orders and a COVID-Safe plan is in place, including the use of face masks and QR codes.

Work location at Schofields Station

Our work schedule

Our work hours will be between **7am to 6pm Monday to Friday** and **8am to 1pm Saturday**, weather permitting. If any additional work is required outside of these hours, the community will be notified in advance.

How will the work affect you?

Our work may be noisy at times. We will make every effort to lessen the disturbance where possible including adding shade cloth mesh to fencing, using noise blankets, turning off vehicles and equipment when not in use and using non-tonal reversing beepers. You may notice an increase in construction vehicle movements and dust. Our team will be monitoring these activities and where possible, put dust suppression measures in place.

Shutdown Period

We will be stopping construction work over the holiday period from **6pm on Friday 24 December 2021** and returning **7am on Monday 3 January 2022**.
