

Transport Access Program

Como Station Upgrade

Out of Hours work

October 2021

Upcoming night work

Night work will take place from **9pm to 5am Wednesday 27 October and Thursday 29 October 2021**. Scheduling this work at night is for the safety of customers, workers and the wider community.

Work will include the removal of the temporary construction fencing and the use of an excavator is required to expediate works to ensure it can be completed swiftly over these 2 nights. Fencing will be pre-cut during the day to minimise noise levels during the night-time hours, the cut panels will then be lifted out with excavator and by hand. The excavator will also be used to bring in new planting equipment for the landscaping and works within the rail corridor, adjacent to the train tracks.

This work may generate slightly higher than normal level of noise. Wherever possible measures to reduce noise will be implemented including turning off vehicles and equipment when not in use, monitoring noise, exercising respite periods during work, and using non-tonal reversing beepers.

We thank you for your patience during this important work.
