

Transport Access Program

Faulconbridge Station Upgrade

Project update

February 2021

Faulconbridge Station, looking south across the footbridge

Upcoming work in February

The upgrade to Faulconbridge Station is progressing well. Construction activities in February will include:

- upgrading the ramp between the footbridge and Railway Avenue commuter car park
- installing lift components and connection of lift services
- landscaping and platform resurfacing.

Equipment to be used during this work will include excavators, compactors, mobile cranes, elevated work platforms, delivery/concrete trucks, power and hand held tools.

Weekend work – 27 February to 1 March

Weekend work will be carried out continuously from **6am Saturday 27 February to 6am Monday 1 March**, weather permitting. This work includes platform resurfacing and services installation at the two lift locations.

To maintain the safety of our customers and staff, this work will be completed during scheduled Sydney Trains trackwork, when **no train services will be operating**. Please visit transportnsw.info or call **131 500** for information about replacement buses during this time.

Equipment to be used during this work will include excavators, surveying equipment, delivery/concrete trucks, concrete pumps, construction trucks, power and hand held tools.

For the safety of workers and motorists, there will be a temporary lane closure on the Great Western Highway (westbound) during this work. Traffic control and signage will be in place to help pedestrians and motorists with this change.

Temporary closure of single parking spaces – commuter car park

During February there will be **intermittent single car space closures** within the commuter car park as new light posts are installed. A single car space will be closed for up to 24 hours at a time using temporary bollards. Signage will be in place to assist customers with this change.

Temporary traffic changes – Great Western Highway

During February there will be **intermittent single lane road closures** on **Great Western Highway (westbound)** near Falconbridge Station. The intermittent closures will take place between **Monday and Friday** from **10am to 2pm** to accommodate large construction vehicles. Traffic control and signage will be in place to help pedestrians and motorists with the traffic changes.

Temporary access changes – between footbridge and commuter car park

Work continues in February to upgrade the ramp between the footbridge and Railway Avenue commuter car park. This includes constructing a retaining wall, earthwork and construction of the new concrete footpath/ramp. Pedestrian and vehicle access will be maintained at all times.

Standard construction hours

Our construction hours are now 7am to 6pm every day, including public holidays. We understand extending construction hours to weekends and public holidays may cause disruption for the community and all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Keep in touch

If you would like to be added to the project distribution email list, or for more information on Falconbridge Station Upgrade please contact us on **1800 684 490** or email projects@transport.nsw.gov.au. For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

Thank you for your patience and support during this important work.
