

Transport Access Program

Goulburn Station Upgrade

Project update

March 2021

The NSW Government is improving accessibility at Goulburn Station

Transport for NSW is improving accessibility at Goulburn Station. The upgrade will provide a station precinct that is accessible to people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

Upcoming work

Work activities in March include:

- upgrading the male and female toilet facilities to include two new ambulant toilets
- completing the first stages of footpath regrading in station forecourt
- replacement of existing tactile indicators on platforms
- internal upgrades to the station building
- occupation of road and footpath at the northern end of the station forecourt
- northern footbridge handrail modification and upgrade
- road re-grading and line marking to the commuter car park opposite the station. During this time the parking spaces opposite the station will be temporarily converted to parallel parking.

Equipment being used during this period will include excavation equipment, various construction vehicles and hand held tools. Customer journeys will not be impacted by this work.

For more information call **1800 684 490**,

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

Changes to toilet facilities

Construction activities on the station toilet facilities will continue in March. Upon the completion of the male toilet reconfiguration, **the female toilet will be closed from Monday 1 March for about four weeks**. During this time, all customers should use **the accessible toilet instead**. Station staff will be on site to assist with customer queries during this time.

Access changes until the end of March 2021

The next section of the southern footpath will be **closed for up to three weeks until late-March**, weather permitting. This is to allow for an accessibility upgrade to the footpath. The southern commuter car park has now re-opened. Customers can now access the two new accessible parking spaces in this car park.

Pedestrian access to the station will remain **via the northern entrance to the station**. Please refer to the map on the bottom of this page.

Signage will be in place around the station to assist customers with this change, and traffic control when required.

Commuter car parking changes from Monday 8 March 2021

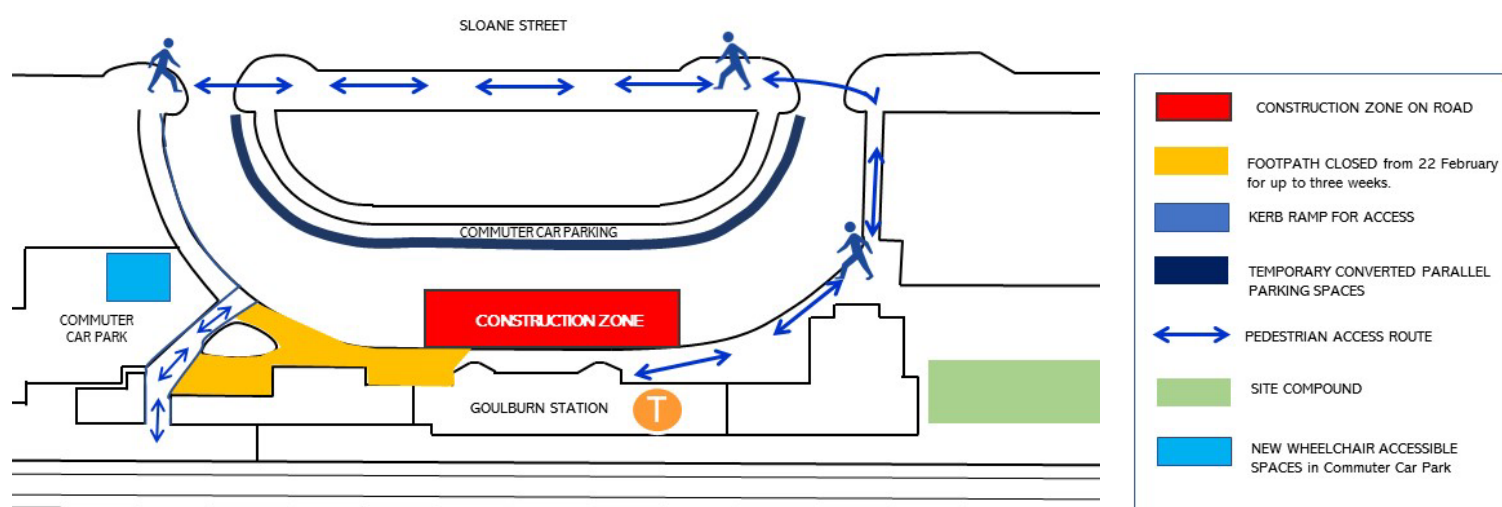

From **Monday 8 March 2021**, the commuter car park opposite the station will be temporarily converted from vertical parking to parallel parking spaces. This allows for road re-grading work to be carried out outside of the station, with vehicle movement moved closer to the island.

The existing accessibility parking spaces will be permanently removed from this car park with the newly converted spaces in the southern commuter car park now available for use.

Vehicle access will remain during this work and pedestrian access to the station will be via the northern entrance to the station.

Signage will be in place around the station to assist customers with this change, and traffic control when required.

Map of access changes

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**. We will notify nearby residents and businesses in advance if we need to work outside these times.

Thank you for your patience as work continues on important transport infrastructure across NSW.

Keep the community informed

Transport for NSW is committed to keeping the community informed throughout the delivery of the project. You can stay informed via regular updates to the project website transport.nsw.gov.au/goulburn. We will also keep the community informed via regular newsletters and signage.

For further information on the project or to receive project updates via email, please call the Project Infoline on 1800 684 490 or email projects@transport.nsw.gov.au. For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
