

Commuter Car Park Program

Leppington

Project update

July 2021

Indicative artist's impression of the façade at Leppington

Transport for NSW is delivering a multi-storey car park with approximately 1,000 additional parking spaces at Leppington Station to provide you with more convenient access to public transport and reduce congestion on our roads.

The new multi-storey car park is expected to be open to customers in the coming months.

Progress update

In June, the lift, stair overruns and storm water line were completed. The installation of structural steel and the lift fit out commenced. Services fit-off, painting and façade installation continued for the multi-storey car park. Over the coming weeks scaffolding will be removed.

Work to connect the new multi-storey car park to water and electrical services in July

What is happening?

In early July work will continue to connect the new multi-storey car park to electrical and water services. In order to complete this work safely, two small site compounds will be installed in the existing ground level commuter car parks. One site compound will be located opposite the kiss and ride area near the station entrance, and the other along the footpath near the roundabout at Rickard Road (see map below).

The exit lane at the roundabout along Rickard Road will be temporarily closed for approximately one week. Pedestrian pathways from the temporary commuter car park will also change due to this work. Equipment to be used will include a 5 tonne excavator with a drilling attachment, a small tip truck, a mini crane and line marking equipment. Once work is completed the area will be cleaned and the compounds will be dismantled. Signage will be installed, and traffic control will be onsite to assist commuters with the changes.

Location of site compounds

Upcoming construction work

During July the following work will occur on the new multi-storey car park:

- Completion of Structural Steel
- Completion of façade
- Commencement of roofing and solar panel installation
- Commencement of site demobilisation
- Scaffold stripping
- External works and landscaping
- Re-routing of traffic
- Modifications in south and north car park
- Connection of high voltage electricity supply
- Installation and connection of water supply

As part of the delivery of 1,000 new parking spaces in the multi-storey car park, we will be converting some standard parking to accessible parking spaces in the existing northern and southern ground level commuter car park. This work is scheduled to occur in early August over two weekends. Signage will be installed ahead of time to notify customers of these changes.

Working hours

Work will be conducted between **7am - 6pm Monday to Sunday**.

Keeping you up to date

We will continue to keep the community informed with regular project updates. More information is available on our website www.transport.nsw.gov.au/leppington. If you would like to sign up to our project distribution list, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au and we will email you regular updates.

For all urgent enquiries or complaints regarding construction activities, please call our **24-hour Construction Response Line** on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
