

More Trains, More Services

An additional \$1 billion in extra rail services

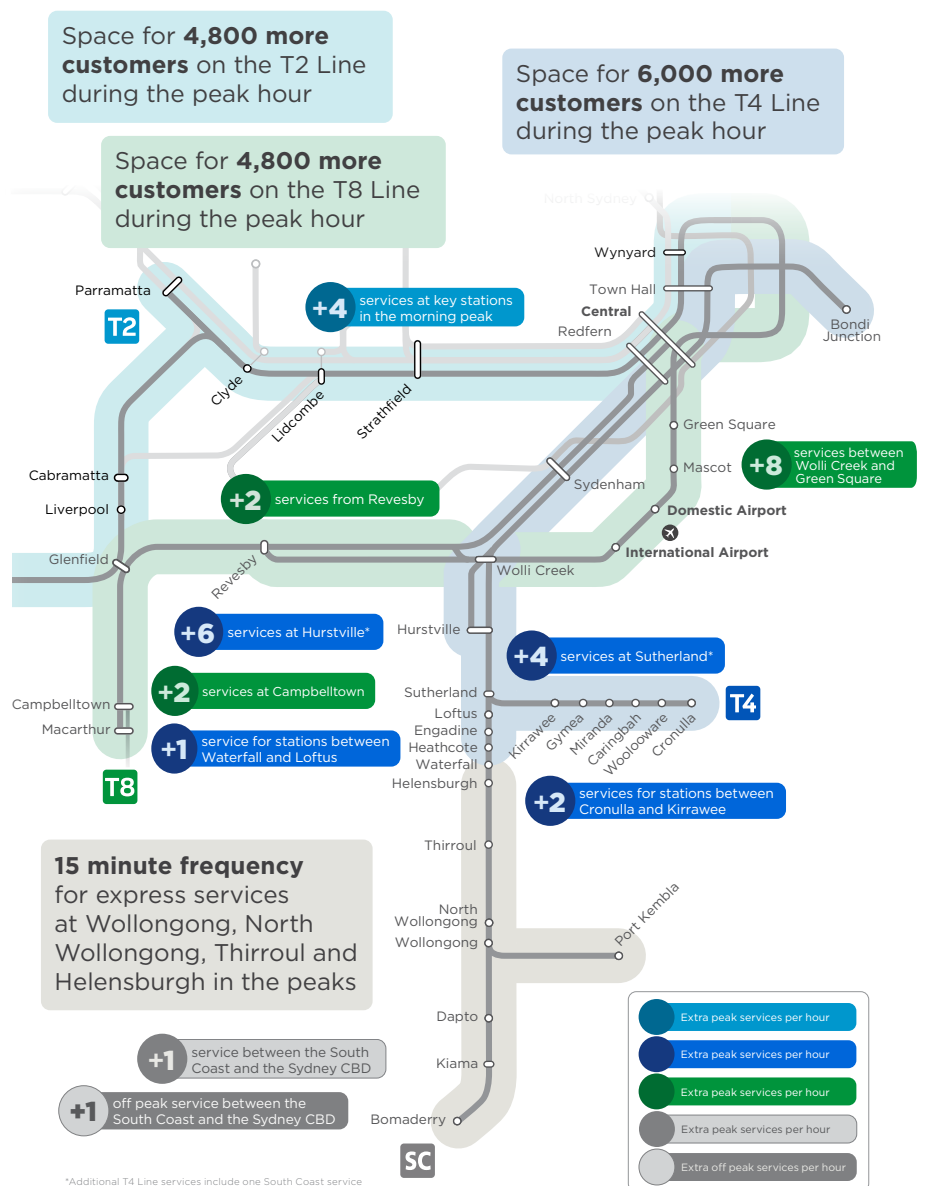

More Trains, More Services is the NSW Government's multi-billion dollar program aimed at delivering a major boost to services on Sydney's busiest rail lines.

The NSW Government has invested an additional \$1 billion in extra rail services as part of the integration of heavy rail with Sydney Metro City & Southwest in 2024. The extra rail services form part of the NSW Government's \$5.3 billion More Trains, More Services program that will deliver further improvements progressively from 2022.

Customers can expect more frequent train services, with less wait times, less crowding and more seats on a simpler, more reliable network.

More Trains, More Services is designed to deliver a range of benefits for rail customers through digital systems, infrastructure upgrades and more new trains.

Future stages of the program will deliver improvements for customers on the T2, T4 and South Coast, and T8 lines, including those shown here:
