

# Transport Access Program

## Petersham Station Upgrade

### Community notification

February 2021

Construction for the Petersham Station Upgrade is progressing well. Work underway includes upgrades to the footpath and ramp on Trafalgar Street, and refurbishing the station toilets.

Activities will continue in February including:

- excavation work on Trafalgar Street in preparation for the footpath upgrade, new ramp and steps
- excavation and concrete work on Terminus Street in preparation for the new lift lobby
- concrete work on the platforms (within the temporary work area) in preparation for the new lift well
- station building refurbishment to provide a new accessible toilet and station services room.

A traffic signal box on Trafalgar Street will be relocated over **one night between Thursday 11 February and Thursday 18 February** to allow for the construction of the new ramp and footpath. This will involve a temporary disruption to the signalised intersection at Trafalgar Street and Regent Street **from 7pm to 2am**, during which time traffic controllers will be in place to assist with traffic movements. Equipment to be used includes power and hand tools.

Pictured: Cranes operating from Trafalgar Street, Petersham in January 2021.

## Male toilet entry door change

Parts of the existing male toilets will be closed while the toilets are refurbished. Entry to the male toilets will be from the Platform 1 side of the station building until **late 2021**. Both male and female toilets will remain open at the station during the duration of the project.

## Parking and access changes on Trafalgar Street

The footpath and a small section of Trafalgar Street (eastbound) kerb-side lane remains closed until **late 2021** to allow for the construction of the new ramp. Please follow the temporary detour via Trafalgar Street (westbound) footpath and allow extra travel time. Signage is in place to help with these temporary changes.

## What you may notice

Equipment to be used for work during February, include excavators, dump trucks, delivery trucks, concrete pumps, concrete trucks, truck-mounted crane and power and hand tools.

## Keep in touch

If you would like to be added to the project distribution email list, or for more information on the Petersham Station Upgrade, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).
