

# Transport Access Program

## Petersham Station Upgrade

### Community notification

January 2021

Construction for the Petersham Station Upgrade is progressing well. In November and December, works were undertaken to prepare for the construction of the new station access ramp on Trafalgar Street and install under-track services.

Activities will continue in January, including:

- excavation work on Trafalgar Street in preparation for the footpath upgrade, new ramp and steps
- concrete work on Terminus Street in preparation for the new lift lobby
- concrete work on the platform (within the temporary work area) in preparation for the new lift well
- station building refurbishment to provide a new accessible toilet and station services room.

Equipment to be used include excavators, delivery trucks, concrete pumps, concrete trucks, power and hand tools.

### Male toilet entry door changes

**From Monday 11 January 2021**, parts of the existing male toilets will be closed while the toilets are refurbished. Entry to the male toilets will be from the Platform 1 side of the station building from that date. Both male and female toilets will remain open at the station during the work, with the refurbishment of the toilet facilities expected to be completed in late 2021.

### Parking and access changes on Trafalgar Street

The footpath and a small section of Trafalgar Street (eastbound) kerb-side lane remains closed until **late-2021** to allow for the construction of the new ramp. Please follow the temporary detour via Trafalgar Street (westbound) footpath and allow extra travel time. Signage is in place to help with these temporary changes.

### Construction hours

**Standard construction hours are from 7am to 6pm every day, including public holidays.** These changes have been made to facilitate physical distancing on construction sites and support the health and wellbeing of workers.

We understand extending construction hours to include weekends and public holidays may cause disruption, but all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Above: crane on Trafalgar street lifting materials to prepare for the construction of the lift connecting the footbridge with platforms.

## Keep in touch

If you would like to be added to the project distribution email list, or for more information on the Petersham Station Upgrade, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au).
