

Transport Access Program

Petersham Station Upgrade

Community notification

August/September 2021

Project update

Construction for the Petersham Station Upgrade is progressing with continued upgrades to the Trafalgar and Terminus Street station entrances, and station platforms. In August and September, work activities will include:

- upgrade to electrical and communication services on the platform and footbridge
- tuning and testing of lift cars
- finishing work on the new lift shafts, lobby area, canopy landings and platform building
- pavement work, line marking and installation of seating and signs on Terminus and Trafalgar Streets
- road works and installation of new pram ramps on Terminus Street
- installation of new wayfinding signage.

Equipment to be used includes excavators, tipper and delivery trucks, concrete pumps, concrete trucks, truck-mounted crane, rollers, and power and hand tools.

Road work on Terminus Street

Road resurfacing work will be carried out in front of the station's new forecourt area on Terminus Street **for two days between Friday 3 September and Friday 10 September 2021.**

For work to be completed safely, **Terminus Street between Railway and Palace Streets, will be closed over the two days.** Traffic access for local residents only will be provided from Palace Street. A detour via Brighton Street will be in place for all other traffic.

Please refer overleaf for a map of the detour and always follow the direction of traffic controllers and signs.

Pedestrian access on Terminus Street and to the station from Terminus Street will be maintained at all times.

Construction hours

To support the construction industry and continue the delivery of important infrastructure, the NSW Government has introduced new rules allowing construction sites to operate on weekends and public holidays.

Standard construction hours are from 7am to 6pm every day, including public holidays. These changes have been made to facilitate physical distancing on construction sites and support the health and wellbeing of workers.

We understand extending construction hours to include weekends and public holidays may cause disruption, however all efforts will be made to minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to. If you experience unacceptable noise, please call **1800 775 465**.

Keep in touch

If you would like to be added to the project distribution email list, or for more information on the Petersham Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
