

# Redfern Station Upgrade

## New Southern Concourse

### COMMUNITY NOTIFICATION

February 2021

The Redfern Station Upgrade – New Southern Concourse will make it easier for all customers to access Redfern Station, improve customer experience and movement, relieve congestion at the station and improve connections to key destinations and surrounding areas. This project is the first stage in renewing the Redfern North Eveleigh Precinct.

### Upcoming work activities

Work on the platforms is progressing well with a number of hoardings installed and piles under construction. Hoarding installation will continue progressively across all platforms in February. In the photograph below you can see hoardings installed, left to right, on Platforms 10, 8/9 and 6/7.

Work on the platforms will continue during standard construction hours, 7am to 6pm Monday to Friday and 8pm to 6pm Saturday.

### Night work activities

There will be times when materials and equipment are removed or delivered to the platforms at night between 10pm and 4am during the week. This will not impact train services and is not expected to be noisy or disruptive. Electrical work will also occur at night to upgrade power boards on the station and install cables and conduits for station services. Undertaking these low noise activities at night reduces the impact to station operations during the day.

Residents and the community adjacent to the work activities will be notified and consulted close to the dates when the scope of work for each weekend or night is confirmed.

## Weekend work activities

Weekend work during scheduled trackwork weekends will occur around the clock as outlined below. Residents adjacent to the works will be provided with additional updates if work is assessed to have a direct impact at their location.

Dates and work hours	Location	Activities
8am Saturday 6 February to 6pm Sunday 7 February	Platforms 1, 4/5	Work activities to occur during the weekends include: <ul style="list-style-type: none"> <li>– Tree trimming and removal, Platform 1</li> <li>– saw cutting of platform surface</li> <li>– excavation</li> </ul>
2am Saturday 13 February to 11pm Sunday 14 February	Platforms 2/3, 4/5	<ul style="list-style-type: none"> <li>– augering / piling</li> <li>– construction of footings and piers</li> <li>– hoarding installation</li> <li>– installation of conduits for services</li> <li>– installation of overhead wire structures</li> </ul>
2am Saturday 20 February to 11pm Sunday 21 February	Platforms 8/9, 10	<ul style="list-style-type: none"> <li>– delivery and removal of plant and materials</li> </ul> Equipment will be in operation on the platforms and on track.

## What you may notice

In advance of the work listed above, plant and equipment will be delivered into the rail corridor via various rail access gates in Redfern, Eveleigh and Erskineville. Heavy vehicles will use local streets to access the rail corridor. Some deliveries may occur at night due to day time travel restrictions on large vehicles.

Equipment to be used includes cranes, flatbed crane trucks, excavators, dump trucks, vacuum trucks, concrete saw, core hole drill, piling rigs, chainsaw, wood chipper, concrete trucks and concrete pumps, compactors, lighting towers, generators, work vehicles, hand and power tools.

Where work occurs adjacent to an operational platform, temporary barricades and staff will be in place to direct customers.

For the safety of staff and customers this work needs to be completed during scheduled trackwork weekends when trains are not running. For up-to-date information about services during these times visit [transportnsw.info](http://transportnsw.info) or call **131 500**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
