

Transport Access Program

Roseville Station Upgrade

Project update

April 2021

Transport for NSW is upgrading Roseville Station to make it easier to access, especially for people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

Upcoming work

Work will continue in April and includes:

- installing scaffolding at the Hill Street Station entrance for construction of the new lift
- refurbishing the station building in preparation for the new family accessible toilet
- constructing new pavement, garden beds and installation of street furniture and fencing at the Pacific Highway entrance
- excavating the garden bed and landscaping work along Hill Street
- concrete work on the station platforms.

Equipment to be used includes trucks, scaffolding, concrete truck and pump, tipper truck, excavator with breaker and hand tools.

For more information call **1800 684 490**,

Email projects@transport.nsw.gov.au or visit transport.nsw.gov.au/Roseville

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**.

Traffic control will be in place intermittently to ensure safe pedestrian and vehicle access around the work site. There may be temporary changes to traffic flow and parking on Hill Street and Pacific Highway which will be managed by traffic control and signage, where required.

Night work in April at Pacific Highway entrance

For the safety of our workers, pedestrians and motorists, work will take place at night in April. Work will occur at the following times:

- **Monday 12 April and Tuesday 13 April**, between **6pm and 7am** on both nights.
- **Monday 19 April and Tuesday 20 April**, between **6pm and 7am** on both nights.

This work will involve removing and replacing the concrete footpath at the station entrance on Pacific Highway. Access to the pedestrian bridge over the railway line will remain open.

Equipment to be used includes excavators, a lighting tower and hand tools. Some noise will be generated as a result of this work. We apologise for the inconvenience and will minimise impacts by turning off vehicles and equipment when not in use, monitoring noise, using non-tonal reversing beepers and acoustic barriers.

Mid week night work

Additional work will take place in April during Sydney Trains track work, with up to four shifts of night work from **Monday 26 April to Friday 29 April** between **6pm and 7am** each day.

Some of this work will take place in the rail corridor and needs to be carried out during a scheduled Sydney Trains track work period when trains aren't running.

Work will include:

- removing scaffolding from the station entrance on Hill Street
- drainage work on the station platform
- removing excess materials from site.

Equipment to be used includes flatbed trucks, cable hauling truck, rattle guns, elevated work platform, excavators, scaffolding and hand tools. Traffic control will be on site to assist with deliveries when required.

Two nights of this work may be noisy. Wherever possible measures to reduce noise will be implemented including scheduling noisy work during daytime hours, turning off vehicles and equipment when not in use, monitoring noise, using non-tonal reversing beepers and acoustic barriers.

The footbridge and station entrances from Hill Street and Pacific Highway will be closed during this night work. Pedestrians will need to detour via Clanville Road, as shown on the map.

Please visit www.transportnsw.info or call **131 500** for up to date information regarding service updates and replacement buses during this time.

Pedestrian detour route during night work

Temporary pedestrian access and parking changes

Until mid-May 2021, pedestrian diversions will be in place to allow for the safe excavation, ground resurfacing and landscaping work at the Pacific Highway station entrance. Pedestrian access will be maintained at all times while the work is carried out.

The footpath alongside the station side of Hill Street will be closed intermittently between Lord Street and Bancroft Avenue to allow for the safe and efficient construction of the new lift. Closures will be in place until mid-2021.

A temporary pedestrian crossing has been installed near Bancroft Avenue to assist pedestrians to safely cross the road while footpath closures are in place.

Two parking spaces on each corner of the temporary pedestrian crossing on Hill Street will be unavailable until mid-2021 for the safety of pedestrians and motorists.

Three parking spaces near the Hill Street station entrance will be temporarily closed until mid-2021 to allow for the safe and efficient construction of the new lift. During this time, the taxi zone and kiss and ride zone will be temporarily relocated to the other side of the station entry (opposite Roseville Pharmacy).

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent online updates published to the project website www.transport.nsw.gov.au/roseville.

If you would like to be added to the project distribution list, or for more information on the Roseville Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
