

Transport Access Program

Roseville Station Upgrade

Project update

May 2021

Transport for NSW is upgrading Roseville Station to make it easier to access, especially for people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

Upcoming work

Work will continue in May and includes:

- pouring concrete, forming and reinforcement work for the new lift on the Hill Street side of the station
- continuing refurbishment of the station building, including ventilation, air conditioning, plumbing work and constructing the new family accessible toilet
- constructing new pavement and tree beds, and installing street furniture and fencing at the Pacific Highway entrance
- excavating the garden bed, landscaping and paving work along Hill Street
- electrical work on the platform
- concrete work on the station platforms.

Equipment to be used includes trucks, scaffolding, concrete truck and pump, tipper truck, excavator with breaker and hand tools.

Night work in May at Pacific Highway entrance

For the safety of our workers, pedestrians and motorists, work will take place at night in May. Work will occur during the evenings of:

- **Monday 10 May** and **Tuesday 11 May**, between **6pm and 7am** on both nights.
- **Monday 17 May** and **Tuesday 18 May**, between **6pm and 7am** on both nights.

This work will involve removing and replacing the concrete footpath at the station entrance on Pacific Highway.

Equipment to be used includes excavator, concrete truck, tipper truck, solar lighting tower and hand tools. Some noise will be generated as a result of this work. We apologise for the inconvenience and will minimise impacts by turning off vehicles and equipment when not in use, monitoring noise, using non-tonal reversing beepers and acoustic barriers.

This work may be noisy at times. Wherever possible measures to reduce noise will be implemented including scheduling noisy work during daytime hours, turning off vehicles and equipment when not in use, monitoring noise, using non-tonal reversing beepers and acoustic barriers.

Traffic and pedestrian changes during night work

One lane on the Pacific Highway southbound will be closed during the work. Please follow the signs and drive carefully through the area.

The footbridge and station entrance on the Pacific Highway side of Roseville Station will be closed during this night work. Pedestrians will need to detour via Clanville Road, as shown on the map.

Roseville Station remains open and trains are operating as normal during this period.

Ongoing temporary pedestrian and parking changes

The footpath alongside the station side of Hill Street remains closed intermittently between Lord Street and Bancroft Avenue to allow for the safe and efficient construction of the new lift. A temporary pedestrian crossing has been installed near Bancroft Avenue to assist pedestrians to safely cross the road while footpath closures are in place. Closures will be in place until mid-2021.

Two parking spaces on each corner of the temporary pedestrian crossing on Hill Street remain unavailable until mid-2021 for the safety of pedestrians and motorists. Three parking spaces near the Hill Street station entrance remain temporarily closed until mid-2021 to allow for the safe and efficient construction of the new lift. During this time, the taxi zone and kiss and ride zone will be temporarily relocated to the other side of the station entry (opposite Roseville Pharmacy).

Construction hours

Standard construction hours are **7am to 6pm Monday to Friday** and **8am to 1pm on Saturdays**.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent online updates published to the project website www.transport.nsw.gov.au/roseville.

If you would like to be added to the project distribution list, or for more information on the Roseville Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
