

Sutherland to Cronulla Active Transport Link

Next stage

Have your say

The Sutherland to Cronulla Active Transport Link is a series of dedicated walking and cycling paths that will help improve the convenience, safety and enjoyment of active transport.

The paths will provide important links for pedestrians and cyclists to connect to key destinations like public transport interchanges, schools, hospitals, residential and retail precincts.

This stage will deliver approximately 7kms of Active Transport Links between Kirrawee and Caringbah.

Optional routes now on display

When we engaged with you in April this year, you provided us with feedback which has been incorporated into the new design and helped develop the Review of Environmental Factors (REF). We are now seeking feedback on the REF and two route options, one between Oak Road and Flora Street and an alternative route via Bath Road and Avery Avenue.

This engagement will build on previous consultation with local stakeholders, businesses, schools, organisations and Sutherland Shire Council.

SCATL - Two proposed routes

Project features

The proposed Active transport link from Kirrawee to Caringbah would include replacement of sections of the existing footpath with a two-way shared path. Project features will include:

- Retention of some sections of existing footpath along the Kingsway which would be separate from the adjacent new two-way cycle path
- Replacement of the existing path to accommodate the shared path along Flora Street, Clements Parade, Hotham Road and Kingsway
- On-road cycle path along southern side Banksia Road
- Off-road cycle path fully separated from traffic along the southern side of Denman Road between Banksia Road and Gannons Road
- Low height retaining walls in front of Sutherland Hospital, Miranda Public School and St Luke's Church
- New raised and ground level crossings of local side-streets.

There would also be works to upgrade facilities along the route, including:

- pavement and kerb ramp works, line marking and traffic signal improvements (including bicycle lantern installations)

- drainage and utility adjustments
- landscaping
- lighting upgrades at side-street crossings.

In order to assist with the planning, operation and construction for the next stage, temporary site offices and compounds would be set up. We expect these would be on an area of vacant land on Hunter Street in Kirrawee and on vacant land on the Eastern side of Kingsway and Sylvania Road intersection in Miranda. Temporary safety barriers and fencing would be installed as necessary.

Please note: Our works would be in line with relevant Public Health Orders. A safe work plan including COVID safe measures will be in place.

Project benefits

- Dedicated active transport paths, fully separating bike riders and pedestrians from the road
- Improved streetscapes, lighting and open spaces
- Local economic benefit, attracting visitors from surrounding areas
- New opportunities to increase family and leisure time outdoors.

Have Your Say

Transport NSW invites your feedback on the SCATL REF and route options. You may provide a submission through any of the following from **Wednesday 17 November to Sunday 19 December 2021**.

Phone: **1800 684 490** • Email: projects@transport.nsw.gov.au

Mail: SCATL Submission, Level 7, 27 Argyle Street Parramatta NSW 2150

Online information sessions

To ensure we protect public health and safety during the Coronavirus outbreak, we are shifting our face-to-face consultation to a digital format.

We would like to invite you to join one of our online community information sessions. These sessions will allow you to meet the project team virtually and ask questions about the project.

There will be two live sessions on:

Thursday 9 December from 12pm-12.40pm

Monday 13 December from 6pm-6.40pm

To register, visit the project page and we will send you a session link. The sessions will be held on Microsoft Teams, please make sure you can access the platform on your phone or computer before the session starts.

If you would like to send in a question please email the project team prior to the session you wish to attend. We will endeavour to answer as many of your questions as possible within the session.

Project page and registration

If you would like more information or would like to register for an online community information session, visit nswroads.work/SCATL

Or use the QR Code to visit project page and register for updates.

Follow NSWROADS on Facebook for project updates and to register for the online sessions.

What's next?

Transport conducts early engagement to get feedback on the concept design

We are here

The REF and route options are on public display for feedback by the community

Feedback is considered and the project is determined - early 2022

Construction commences - late 2022

Construction is complete and SCATL is open to the public from late 2023

Translating and Interpreting Service

If you need an interpreter, please call the Translating and Interpreting Service (TIS National) on **131 450** and ask them to telephone Transport for NSW on 1800 684 490.

Arabic

إذا كنت بحاجة إلى مترجم، الرجاء الاتصال بخدمة الترجمة الخطية و الشفهية (TIS National) على رقم 131 450، و الطلب منهم الاتصال بوكالتكم Transport for NSW على الرقم 1800 684 490

Cantonese

若你需要口譯員，請致電 **131 450** 聯絡翻譯和口譯服務署 (TIS National)，要求他們致電 **1800 684 490** 聯絡 Transport for NSW。
