

# Commuter Car Park Program

## St Marys Station

Project update

July 2021

*Artist's impression of St Mary's Commuter Car Park, subject to detailed design*

Transport for NSW is providing additional commuter parking at St Marys, a joint initiative of the Australian and NSW Governments. Additional commuter car parking at St Marys Station will provide the community with more convenient access to public transport and reduce congestion on our roads.

This project will add two levels to the existing multi-storey commuter car park to provide around 250 new spaces, and support the proposed new metro station interchange at St Marys. The car park is expected to be complete and open to commuters in early 2022.

## Construction progress

In May and June, site establishment activities commenced with the installation of the site compound, site sheds and changes to the entry and exit. The rooftop of the multi-storey car park has now closed for approximately six months and demolition and scaffolding activities have commenced.

## Upcoming changes to parking

From **Friday 2 July**, **level two** within the multi-storey car park will be temporarily closed **until late 2021**. The closure will enable construction work to safely occur on the rooftop. **Customers can continue to park on the lower levels of the multi-storey and on ground level next to the multi-storey car park.**

All commuters will need to **exit level two by 10am Saturday 3 July**. We apologise in advance for any inconvenience our work and these temporary changes may cause.

### Alternative commuter parking nearby

We understand some commuters will need to use alternative parking options and apologise for any inconvenience caused as part of the extension works. We recommend commuters utilise available commuter parking at nearby stations including Werrington, Kingswood, Mt Druitt and Rooty Hill. These nearby stations currently have parking availability. Additional parking is also available in the Penrith Station multi storey car park with express train services into the Sydney CBD.

It may take you longer than usual to find a parking space or you may need to go to a nearby station. Plan your journey ahead of time. If possible, please consider flexible working arrangements during this time.

## Upcoming construction work

During July, the following work will occur on the new car park:

- perimeter scaffolding will continue to be constructed
- hoardings will be installed at various points around the car park for the safety of the community and construction workers
- demolition of existing structural elements on the rooftop and ground floor of the car park will continue in order to enable future extension works.
- formwork and concrete works will commence for the future extension levels.

Existing lifts and stairs to access the ground floor will remain open and accessible to commuters.

## Vegetation removal

Some trees and vegetation will need to be removed for the car park extension. All trees removed as part of the project will be offset with landscaping at the end of the project.

## Construction hours

Work will take place during standard construction hours between **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**. Deliveries will be scheduled outside of peak times wherever possible to minimise disruption to local businesses, pedestrians and motorists.

## Keeping you up to date

We will continue to keep the community informed with regular project updates. More information about the project is available on our website [www.transport.nsw.gov.au/stmarys](http://www.transport.nsw.gov.au/stmarys). If you would like to sign up to our project distribution list, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au). We send project updates via email monthly.

For all urgent enquiries or complaints regarding construction activities, please call our **24-hour Construction Response Line on 1800 775 465**.
