

Transport Access Program

St Peters Station Upgrade

COMMUNITY NOTIFICATION

JUNE 2021

The St Peters Station Upgrade is part of the NSW Government's Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with a disability, limited mobility, parents/carers with prams and customers with luggage.

Upcoming site activities

Between **7am and 6pm Tuesday 15 June to Friday 18 June**, site and underground service investigations will take place on platform 3/4. This involves using a concrete saw to cut the asphalt followed by the use of hand tools to identify the services beneath the station platforms and reinstate the platform.

What you may notice

Equipment to be used during these investigations will include a concrete saw, shovels, wrecking bar and hand tools.

Some of this work may be noisy at times however, we will make every effort to minimise the impact to nearby residents and businesses.

Wherever possible, measures to reduce noise will be implemented including turning equipment off when not in use, positioning equipment as far away from residences as possible, monitoring noise, using non-tonal reversing beepers and stopping work for respite periods.

We apologise for any inconvenience and thank you for your patience while we carry out these works.
