

Redfern Station Upgrade

New Southern Concourse

Community notification

June 2021

Project update

In June, work is continuing to upgrade Redfern Station and build the New Southern Concourse. Over the past months, we have been working hard to construct the foundations of the new entrances and concourse.

You will soon start to see work begin to occur above ground level in preparation for construction of the new concourse. We will be working to construct the support structures and footings of the new footbridge. Work will also continue behind the platform hoardings.

At the Marian Street compound, excavation, concreting and cable route installation is continuing as we prepare the new plaza area.

On Little Eveleigh Street, we will be working with Ausgrid to modify the overhead powerlines. This may require some temporary loss of power to some properties. Ausgrid will directly notify any affected properties with further information once details are confirmed.

Standard work hours are between 7am to 6pm Monday to Friday and 8am to 6pm Saturday. For up to date information about train and bus services please contact 131 500 or visit transportnsw.info.

Temporary changes to parking on Little Eveleigh Street

From Wednesday 14 June to Wednesday 2 July, up to two car spaces will be unavailable as we carry out works progressively along the street. During the work a vacuum truck will be used to help locate underground services and traffic control will be in place to safely direct vehicles, cyclists and pedestrians around the work.

Weekend and night work activities

The table on the next page includes detailed information about upcoming weekend and night work periods in June.

Equipment to be used during these times may include cranes, cherry pickers, flatbed crane trucks, excavators, dump trucks, forklifts, vacuum trucks, concrete saw, core hole drill, plate compactor, piling rigs, concrete trucks and concrete pumps, jackhammer, compactors, lighting towers, generators, work vehicles, hand and power tools.
