

# Redfern Station Upgrade

## New Southern Concourse

### Community notification

May 2021

The Redfern Station Upgrade – New Southern Concourse will make it easier for all customers to access Redfern Station, improve customer experience and movement, relieve congestion at the station and improve connections to key destinations and surrounding areas. This project is the first stage in renewing the Redfern North Eveleigh Precinct.

### Project update

Work on the platforms continue with hoardings installed on platforms 1 to 10. Ongoing work activities during standard hours between **7am to 6pm Monday to Friday and 8am to 6pm Saturday** include continued construction of the support structures and footings for the new footbridge, installation of cable routes, services and electrical works. Activities will commence at the southern end of Platform 1 to prepare for a building relocation later in the year. Work will also begin to construct the car park at the southern end of Little Eveleigh Street.

### Little Eveleigh Street work activities

In May, work will continue inside the building at 125 -127 Little Eveleigh Street to remove the existing internal fitout and undertake additional investigation activities. Work will occur during the standard construction hours. Subject to approval, up to two trees will be removed in front of the building to enable the construction of the new Redfern Station entrance.

We are continuing to work with Ausgrid to adjust the overhead power lines outside the building which may require Ausgrid to temporarily disconnect power to some properties. Ausgrid will directly contact any residents likely to experience any power service interruptions during this work. If you experience any unexpected power interruptions, please contact Ausgrid:

General enquiries: [www.ausgrid.com.au/contactus](http://www.ausgrid.com.au/contactus) Emergencies: **13 13 88**

A project notification will be provided to residents once a date for this work has been confirmed in May or June.

### Marian and Gibbons Street work activities

Within the existing site compound at Marian Street, excavation, concreting and cable route installation will commence in May as part of the activities to build the new station entrance.

The extension of the site compound into the northern end of Gibbons Street Reserve is also progressing. This will improve access to the site compound and provide additional space for plant and materials to be delivered and removed from the site. The extension will require the construction of hoardings in this section of the Reserve, as well as the removal of some trees and vegetation.

For more information call **1800 684 490**, email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au) or visit [transport.nsw.gov.au/redfern](http://transport.nsw.gov.au/redfern)

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**  
Mail to: Redfern Station Upgrade – New Southern Concourse, PO Box K659, Haymarket NSW 1240  
Reference No: SSI-10041

Footpath widening within Gibbons Street Reserve to provide sufficient access around the hoardings for pedestrians and cyclists will continue throughout May.

## Weekend and night work activities

For the safety of staff and customers, much of our work needs to be completed outside of standard working hours at times, when trains are not running, primarily during scheduled Sydney Trains trackwork weekends. The table below includes detailed information about upcoming weekend and night work periods in May.

Residents adjacent to the work will be provided with additional updates if work is assessed to have a direct impact at their location.

Dates and work hours	Location	Activities
2am Saturday 1 May to 2am Monday 3 May	Platforms 1, 2/3, 4/5	Work activities to occur during the weekends include: <ul style="list-style-type: none"> <li>- saw cutting of platform surface</li> <li>- excavation</li> <li>- augering / piling</li> <li>- concrete pouring</li> </ul>
2am Saturday 15 May to 2am Monday 17 May	Platforms 4/5, 6/7, 8/9	<ul style="list-style-type: none"> <li>- backfilling of excavated areas</li> <li>- construction of footings and piers</li> <li>- installation of conduits for services</li> <li>- installation of overhead wire footings and structures</li> <li>- modifications to existing overhead wires</li> <li>- delivery and removal of plant and materials</li> </ul> <p>Equipment will be in operation on the platforms and on track.</p>
9pm – 5am Mid-weeknights in May	Various Platforms, Newtown, Eveleigh and Erskineville access gate, and Project site compounds at North Eveleigh and Marian Street.	Materials and equipment will be periodically removed or delivered to the platforms at night and electrical work may occur up to two nights per week. This work is not expected to be noisy.

## Temporary parking impacts

From 6am Thursday 29 April to 6pm Monday 3 May parking spaces (identified in the map below) will be temporarily removed on Little Eveleigh Street. This is to enable material and equipment to be safely delivered and removed during the rail shutdown over **Saturday 1 and Sunday 2 May**. Traffic control, detour and information signage will be in place to assist motorists, cyclists and pedestrians around the area.

## What you may notice

Equipment to be used during these periods includes cranes, flatbed crane trucks, excavators, dump trucks, vacuum trucks, concrete saw, core hole drill, plate compactor, piling rigs, concrete trucks and concrete pumps, jackhammer, compactors, lighting towers, generators, work vehicles, hand and power tools.

Where work occurs adjacent to an operational platform, temporary barricades and staff will be in place to direct customers.

In advance of the work listed above, plant and equipment will be delivered into the rail corridor via various rail access gates in Redfern, Newtown, Eveleigh and Erskineville. Heavy vehicles will use local streets to access the rail corridor. Some deliveries may occur at night due to day time travel restrictions on large vehicles.

This work may be noisy at times and we will implement measures to reduce potential noise impacts such as turning off equipment when not in use and where possible using noise blankets. We will also notify residents directly where a direct noise impact is expected to occur.

For up to date information about train and bus services during this time please contact **131 500** or visit **transportnsw.info**
