

October 2021

Transport Access Program

Thornleigh Station Upgrade

The Thornleigh Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with a disability, limited mobility, parents/carers with prams, and customers with luggage.

We thank you for your patience during this important work.

October out of hours work

We will be working from **4am Saturday 30 October to 10pm Sunday 31 October**, removing the station staircase adjacent to the Benowie Walkway and upgrading the waiting area on the station platforms.

During this work, we will also be relocating services within the rail corridor, installing footings for the new station canopies, installing drainage and electrical routes on the platforms. Temporary timber hoarding will be installed around the work zone.

This work may be noisy at times and we will make every effort to carry out our high noise activities by 10pm. We apologise for any inconvenience this may cause.

How will this work effect you?

Equipment used during the weekend work and throughout November includes; excavators, piling machinery, vaccum trucks, road saws, jackhammers, tipper trucks, concrete trucks and pumps, dump trucks, chainsaws, cranes, chippers, lighting towers, various power tools.

Where possible, measures will be implemented to reduce noise and dust associated with this work, including adding shade cloth mesh to fencing, using noise blankets, turning off vehicles and equipment when not in use and using non-tonal reversing beepers.

November work

Work will continue at Thornleigh Station throughout November. Activities include:

- Construction of the new lifts and access ramps and stairs
- Construction of the new canopies on the station platform
- Installation of new cables
- Building work for new Toilets on the Platform.

Covid-19 Safe Practice

The Thornleigh Station Upgrade is committed to follow the advice of the NSW Government abiding to all safe Covid-19 safe practices.
