

Transport Access Program

Lisarow Station Upgrade

Project update

February 2021

Construction on the Lisarow Station Upgrade is progressing well with investigation and underground services relocation activities underway during January.

Upcoming work

Work will continue in February and includes:

- utility investigations and site surveying work
- relocation of underground and aerial services
- piling for the lift shafts and Boarding Assistance Zone canopy
- construction of the concrete lift bases
- installation of concrete and steel lift shaft components.

Equipment to be used includes surveying equipment, small drilling rigs, vacuum trucks, mini loaders, excavators, cranes, light vehicles and hand tools.

Weekend work – 13 to 14 and 27 to 28 February 2021

Weekend work will be carried out from **6am Saturday 13 February to 6pm Sunday 14 February 2021** and, **6am Saturday 27 February to 6pm Sunday 28 February 2021**. The work will include installation of a lift shaft and delivery of plant and equipment from the Pacific Highway.

Equipment to be used includes excavators, elevated working platforms, cranes, semi-trailers, scaffolding and hand tools.

Wherever possible, measures to reduce noise will be implemented including turning equipment off when not in use, positioning equipment as far away from residences as possible, monitoring noise, using non-tonal reversing beepers and stopping work for respite periods.

Temporary access changes

From **6am Saturday 27 February to 6pm Sunday 28 February 2021** traffic control will be in place to assist pedestrians accessing Lisarow Station from the Pacific Highway while work is carried out to install the new lift shaft. The Pacific Highway commuter car park will be closed during this time. Please follow the directions of traffic controllers and signage and allow extra travel time.

Temporary bus stop relocation

From **6am Saturday 27 February to 6pm Sunday 28 February 2021** the bus stop located at the Lisarow Station car park entrance will be relocated to the south of the Pacific Highway and Ridgeway Road intersection. Traffic control and signage will be in place to assist customers and pedestrians.

Construction hours

To support the industry and continue the delivery of critical infrastructure, the NSW Government has introduced new rules allowing construction sites to operate on weekends and public holidays. Standard construction hours are now **7am to 6pm every day, including Sundays and public holidays**.

These changes have been made to facilitate social distancing on construction sites and support the health and wellbeing of workers.

Keeping the community informed

Transport for NSW is committed to keeping the community informed throughout the delivery of the project. You can stay informed via regular updates to the project website transport.nsw.gov.au/lisarow.

We will also keep the community informed via newsletters, advertisements and signage.

For further information on the project or to receive project updates via email, please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au. For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **(02) 9200 0200**. The interpreter will then assist you with translation.
