

Commuter Car Park Program

North Rocks

Artist's impression of North Rocks Commuter Car Park, subject to minor design changes

More commuter parking at North Rocks is on the way

Transport for NSW is delivering approximately 135 additional commuter car parking spaces on the corner of Barclay Road and Perry Street to provide the community with more convenient access to public transport and reduce congestion on our roads. The car park is expected to be completed and open to the community by mid-2022.

The design of the new commuter car park

The detailed design for North Rocks commuter car park has now been completed and includes:

- approximately 135 additional car parking spaces, to supplement the existing car park near Barclay Road
- landscaping in and around the car park area
- accessible car parking spaces

- lighting and wayfinding for improved safety and security
- Opal Park&Ride infrastructure (Opal operated boom gates)

For more information about the car park's design, visit www.transport.nsw.gov.au/northrocks

What is happening in October?

In mid to late October, site establishment work will begin to take place for the new commuter car park in North Rocks.

Construction activities in October will include:

- site inspections and investigation work
- surveying of land and inspection of inground services
- site establishment work and tree removal
- service investigations and disconnections
- site clearance and demolition of existing services
- excavation works

Equipment to be used during the work include vacuum trucks, excavators, surveying equipment and hand tools.

Our work schedule

We will be on site from Monday to Friday between 7am and 6pm, and between 8am and 1pm on Saturday.

We will contact you to advise of any work required outside of these hours.

We are planning our work schedule over the next few months and would like to know if there are students living in the area who will be sitting the Higher School Certificate (HSC) examinations in 2021. If a member of your household is studying for the HSC, please advise us as soon as possible.

How will our work affect you?

Our work may be noisy at times, however, wherever possible, we will put measures in place to reduce the impact of this noise including turning equipment off when not in use and using non-tonal reversing beepers for trucks used on the site.

These works are in line with the current Public Health Orders and a COVID Safety Plan is in place, including QR codes and masks.

Contact us

We will continue to keep the community informed with regular project updates. If you would like to sign up to our project mailing list, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au

We send monthly project updates via email.

More information about the project is available on our website

www.transport.nsw.gov.au/northrocks

For all urgent construction work enquiries or complaints, call the **24-hour Construction Response Line** on **1800 775 465**.

Thank you for your patience during this important work.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
