

Transport Access Program

Lisarow Station Upgrade

Project update

June 2021

Construction on the Lisarow Station Upgrade is progressing well with the lift shaft piling and installation activities underway during May.

Upcoming work

Construction activities in June includes:

- utility investigations and site surveying work
- regrading of station platform
- service installation work
- piling for the Boarding Assistance Zone canopy
- construction of the new ramp for the Pacific Highway station entrance.

Equipment to be used includes surveying equipment, small drilling rigs, vacuum trucks, mini loaders, excavators, cranes, light vehicles and hand tools.

Weekend work – 12 to 14 June

From **5am Saturday 12 June until 10pm Monday 14 June 2021** the station will be **temporarily closed** during a scheduled Sydney Trains trackwork weekend when trains are not operating.

A free shuttle bus will be operating during this time to help members of the public travel from one side of the station to the other. The shuttle bus will pick up and drop off passengers at the existing bus stop locations on the Pacific Highway and Railway Crescent.

Construction activities will include:

- lift installation work
- delivery of plant and equipment from the Pacific Highway.

Equipment to be used includes elevated working platforms, cranes, semi-trailers, scaffolding, pumps and hand tools.

Temporary access changes and bus stop relocation

The following access changes are in place on the **Pacific Highway** side of the station entrance:

- the existing access to Lisarow Station from the Pacific Highway **is temporarily closed** until August 2021. A new temporary ramp has been installed to access Platform 1 during this time.
- the bus stop has been relocated up to 80 metres toward the local shopping centre.
- from **Tuesday 1 June** entrance to the Pacific Highway commuter car park for vehicles will be temporarily relocated around 20 metres north of the current entrance.
- from **Tuesday 1 June** the existing entrance to the commuter car park for pedestrians will be temporarily closed. Access to the car park will be via a temporary walkway along the Pacific Highway.

Please see map overleaf for station layout during these times. Traffic controllers and signage will be in place to assist customers accessing Lisarow Station.

Temporary parking impacts

From **Tuesday 1 June 2021**, up to six parking spaces will be removed in the Pacific Highway Commuter Car Park. This is to create a new entrance to the car park as the existing entrance will be closed for an accessibility upgrade.

Please allow extra travel time and follow the directions of traffic controllers and signage in place.

Construction hours

Standard construction hours are now **7am to 6pm every day**. This is to facilitate social distancing on construction sites and support the health and wellbeing of workers.

For the safety of staff, customers and the community, some work will be completed outside standard construction hours. We will notify nearby residents and businesses in advance if we need to work outside these times.

For more information call **1800 684 490**.
