

Commuter Car Park Program

West Ryde Station

Project update

August 2021

Construction progress on West Ryde Commuter Car Park, July 2021

Transport for NSW is delivering additional commuter car parking at West Ryde Station to provide the community with more convenient access to public transport and reduce congestion on our roads.

The new car park will be located along Ryedale Road and will provide the community with approximately 100 additional commuter parking spaces. The car park is expected to be completed and open to the community by the end of 2021.

Construction update

In line with the NSW Government announcement on Wednesday 28 July 2021, construction on the West Ryde Commuter Car Park recommenced in August 2021.

Our work will be carried out in line with the latest health and safety requirements and with COVID safe practices to keep our workers and the community safe. Further information about construction resuming in Sydney is available on the [Infrastructure NSW website](https://www.infrastructure.nsw.gov.au).

Upcoming work

During August and September, the following works will occur on the new car park including:

- installation of new in-ground and above ground services in the main commuter car park area
- installation of the new rail corridor fence
- installation of the new car park surfaces, kerb and gutters
- line marking for the new car park surface
- installation of the new CCTV system.

Equipment to be used includes concrete trucks, kerb and gutter machinery, excavators, steel drum vibratory roller and asphalt paving machinery.

Detailed design of the new commuter car park

Following community and Council feedback, detailed design for the new West Ryde commuter car park has been completed. The new car park will provide the community with up to 100 additional parking spaces. To reduce the interface between vehicles and pedestrians, the entry and exit driveways to the car park have been consolidated and moved further north along Ryedale Road.

The new car park will have Transport Park&Ride which will provide commuters with up to 18 hours free parking each day. All you have to do is complete a public transport journey by tapping on and off using an accepted Opal card, then use the same Opal card when you exit the car park.

We have been working with City of Ryde Council on the landscaping connecting to the footpath along Ryedale Road. The new car park will have approximately 77 trees to provide amenity.

Temporary changes to footpath access and street parking

In August stormwater installation work will take place along the pedestrian footpath on the station side of Ryedale Road and will occur in two stages.

For more information call **1800 684 490**

Email projects@transport.nsw.gov.au or visit www.transport.nsw.gov.au/westryde

For urgent enquiries or complaints regarding construction activities, please call 24 hours **1800 775 465**

The first stage will install stormwater services across from the Wattle Street intersection. This work will take up to five days to complete.

The second stage will take place across from the Herbert Street intersection and will take approximately three days to complete. This will require the temporary closure of the footpath. Signage will be installed to assist customers with the temporary changes during both stages of work.

City of Ryde work along Ryedale Road

City of Ryde Council are undertaking work along Ryedale Road as part of the Ryedale Road Town Centre Upgrade project, and have engaged Ferrycarrig to deliver the project on their behalf. Upcoming work will include demolition and construction of new kerb and gutters, new light poles and installation of new underground electrical and stormwater service lines. This work is scheduled to take place during the day for the next few weeks. For any questions regarding the work please contact Ferrycarrig on 1300 215 191 or email info@ferrycarrig.com.au.

Following community feedback submitted to TfNSW, City of Ryde Council have recently approved plans to provide a Kiss and Ride drop off zone to the south of the station. You can find more information about this change at their website.

Construction hours

Work will take place during standard construction hours between **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**. Deliveries will be scheduled outside of peak times wherever possible to lessen the disturbance to pedestrians and motorists.

Keeping you up to date

We will continue to keep the community informed with regular project available on our website www.transport.nsw.gov.au/westryde. If you would like to sign up to our monthly project email list, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au. For all urgent enquiries or complaints regarding construction activities, please call our **24-hour Construction Response Line** on **1800 775 465**.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
