

Transport Access Program

Yagoona Station

Community notification

March 2021

Planning is underway for an accessibility upgrade at Yagoona Station. As part of the planning process, preliminary investigations will be carried out to identify ground conditions to help inform the design and construction of the upgrade.

Site investigations

Geotechnical investigations, site surveys and site inspections will be carried out in the station precinct from Monday 22 March. The work will be carried out from **7am to 6pm, Monday to Friday** and is expected to take up to four weeks to complete.

Equipment to be used includes hand auger, boring rig, vacuum truck, power and hand tools.

Weekend work – 20 to 21 March 2021

For the safety of customers, workers and the community, work will take place between **6am and 6pm** on **Saturday 20** and **Sunday 21 March 2021** during a scheduled Sydney Trains track work period when trains are not running.

The work will include photography of the station precinct, site surveys and taking soil and rock samples using a boring rig, vacuum truck, power and hand tools.

See the map overleaf for work area locations.

This work may be noisy at times. Wherever possible measures to reduce noise will be implemented including turning off vehicles and equipment when not in use, monitoring noise and using non-tonal reversing beepers.

For up to date information about replacement bus services during these times please visit transportnsw.info or call **131 500**.

We thank you for your patience during this important work.

Work area during 20 – 21 March weekend work

Yagoona Station map legend:

-  Temporary work zones to undertake borehole investigation during March 20 - 21.
-  Temporary work zones to undertake geotechnical testing and surveying during March
