

Transport Access Program

Yagoona Station Upgrade

Project update

November 2021 to January 2022

Above: Artist's impression of the upgraded Yagoona Station.

Upcoming work

Construction on the Yagoona Station Upgrade is progressing well with service installation and relocation work in and around the station starting in October. Activities will continue from November 2021 to January 2022 and will include:

- site survey and investigations
- ongoing installation and relocation of electrical, water, communication and CCTV services in and around the station
- preassembly of structural steel in Breasley Place car park
- concrete work for the new lift and concourse
- installation and fit out of station building services on the platform and new concourse
- building a new ramp between the station and Breasley Place car park, including excavation and concreting
- vegetation removal
- concrete works for the lift shaft and new concourse foundations
- stockpile management and material removal from within the rail corridor.

Equipment to be used includes surveying equipment, cranes, trucks, concrete trucks and pumps, power and hand tools.

Weekend work and Christmas trackwork period

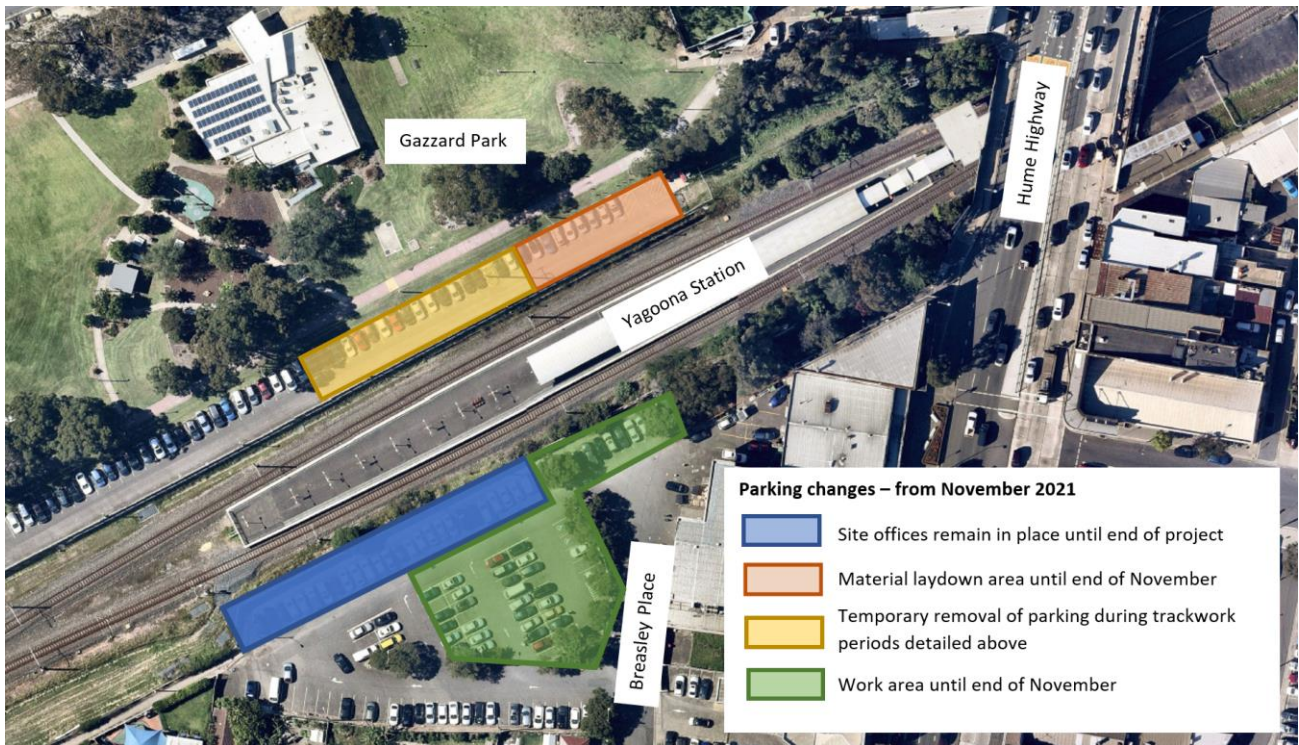

Work will be carried out continuously during the following scheduled Sydney Trains track work periods, when the station is closed and no trains are running. Work will include:

Date	Work
6pm Friday 5 November to 2am Monday 8 November 2021	<ul style="list-style-type: none"> • installation of preassembled platform building using a crane in Breasley Place car park • excavation • concrete works • installation and relocation of services • installation of scaffolding under existing concourse
6pm Friday 17 December to 2am Monday 20 December 2021	<ul style="list-style-type: none"> • removal of sections of the existing concourse and platform canopies • excavation work on the station platform • installation and relocation of services • concrete works
Sunday 26 December to Sunday 9 January 2021 Note: Further details will be provided before this work commences.	<ul style="list-style-type: none"> • removal of the existing concourse • concrete works • installation of new precast concourse, structural steel for the new canopy and roofing • resurfacing of the platform • upgrade the power supply • use of a crane to move materials to and from the platform

Equipment to be used includes a crane, concrete trucks and pumps, trucks, power tools and hand tools.

Please visit transportnsw.info or call **131 500** for information about replacement buses during the above times.

Parking changes

Temporary parking changes in the Breasley Place car park for site offices will remain in place until the end of the project.

Additional parking changes in the Breasley Place car park and the car park adjacent to Gazzard Park will also remain in place in November to maintain a safe area to preassemble the new station platform, assemble structural steel for the station upgrade and use a crane to lift materials into the rail corridor.

An additional 20 parking spaces will also be temporarily closed in the car park adjacent to Gazzard Park during planned Sydney Trains trackwork periods detailed in the above table.

Access changes

A pedestrian detour will be in place while work is carried out to upgrade the ramp between Gazzard Park and the Hume Highway in **January 2021**.

Access to the station from the car park next to Gazzard Park will be via Gazzard Park and Cooper Road. Please follow the direction of detour signs during this time.

Construction hours

Standard construction hours are from 7am to 6pm every day, including public holidays.

We understand extending construction hours to include weekends and public holidays may cause disruption. We will minimise impacts where possible and ensure strict environmental conditions relating to noise, vibration and dust management are adhered to.

Where weekend and night work is required, measures will be implemented to minimise the disturbance wherever possible, such as turning off vehicles when not in use, positioning construction equipment as far away from residential areas as possible, using non-tonal reversing beepers, and monitoring noise levels.

Keep in touch

We will continue to keep the community informed with regular project notifications and frequent updates published to the project website transport.nsw.gov.au/yagoona. If you would like to be added to the project distribution list or for more information, please contact projects@transport.nsw.gov.au or call the Project Infoline on **1800 684 490**.
