

Transport Access Program Yagoona Station Upgrade Have your say

Artist's impression of the proposed Yagoona Station Upgrade, subject to detailed design

The NSW Government is improving accessibility at Yagoona Station

Planning is currently underway to improve accessibility at the station. The community is invited to provide feedback on the Review of Environmental Factors (REF) from **Tuesday 18 May to Tuesday 1 June 2021**. Community feedback will help us understand what is important to customers and the community.

Key features of the proposed upgrade include:

- replacing the existing station entry concourse, building and stairs with a new station entry concourse from the Hume Highway including a new lift and stairs connecting the concourse to the station platform
- a new station building on the island platform for station facilities, including a new family accessible toilet and new male and female ambulant toilets
- additional platform canopies to provide continuous cover from the new lift and stairs to Platform 1 boarding assistance zone
- two new accessible parking spaces in the Breasley Place commuter car park and upgrade of the two accessible parking spaces in the Ritchie Road commuter car park
- upgrade of pathways from both commuter car parks to the station entrance
- new kiss and ride bay on Hume Highway
- platform regrading and new tactile installation
- relocating existing bike hoops
- upgrades to lighting, and CCTV.

Subject to planning approval, construction is expected to commence in mid 2021 and take up to 18 months to complete.

Key features of the proposal, subject to detailed design

Have your say

The Review of Environmental Factors (REF) is on public display until **Tuesday 1 June 2021**, and community feedback is invited during this time. To view the REF, please scan the QR code or visit transport.nsw.gov.au/yagoona

Feedback can be submitted by:

- Emailing projects@transport.nsw.gov.au
- Completing the feedback form at transport.nsw.gov.au/yagoona

- Mailing
Transport Access Program
Yagoona Station Upgrade
 Associate Director Environmental Impact Assessment
 Transport for NSW
 PO Box K659 Haymarket NSW 1240

Your feedback will help Transport for NSW understand what is important to customers and the community.

Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure. As part of this program, the Yagoona Station upgrade will provide a station precinct that is accessible to people with a disability, limited mobility, parents/carers with prams and customers with luggage.

Next steps

Transport for NSW develops initial concept design options for the project, including identification and consideration of environments constraints, risks and opportunities.

We are here

Transport for NSW prepares a Review of Environmental Factors (REF) for public display and invites submissions.

Transport for NSW assess and responds to feedback and prepares a submission report/determination report with proposed conditions to minimise environmental impacts.

Transport for NSW determines the Proposal.
Conditions of Approval made available on Transport for NSW website.

Construction commences subject to compliance with conditions.

COVID-19 social distancing measures

Under normal circumstances Transport for NSW would hold community information sessions at the station.

Due to COVID-19 social distancing measures we are available by phone and email and look forward to hearing your questions and feedback that way.

If you have any questions, please call the Project Infoline on **1800 684 490** or email projects@transport.nsw.gov.au

Review of Environmental Factors

The Review of Environmental Factors (REF) is a planning document outlining the proposed work, potential impacts and mitigation measures.

The document includes comprehensive assessments on the existing environment and potential impacts of the project on the following areas including traffic and transport, biodiversity, heritage, noise and vibration and visual impacts.
