

Commuter Car Park Program Emu Plains

Community Notification | May 2022

Project overview

Transport for NSW is constructing a new commuter car park at Emu Plains Station to provide the community with more convenient access to public transport and reduce congestion on our roads. The project is jointly funded by the Australian and NSW Governments. The car park, which will be accessed via a new roundabout at the intersection of Old Bathurst Road and Smith Street, will provide approximately 750 additional commuter parking spaces.

Progress update

Earthworks and construction of a new roundabout continued during April. Due to wet weather, some work planned for April was delayed and is now planned for May.

Night work from 26 April

From Tuesday 26 April 2022, up to six nights of work between 6pm and 6am are planned to occur over five weeks, subject to weather and approvals. This work includes utility services work along Old Bathurst Road.

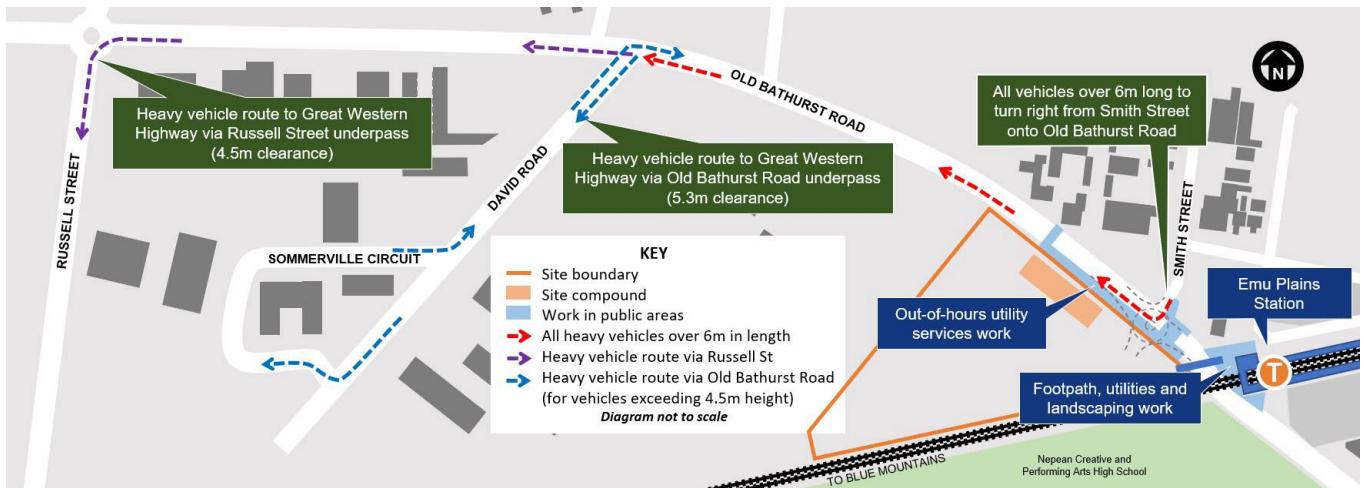

A temporary full road closure of Old Bathurst Road, between Great Western Highway and Smith Street, is planned for up to three weeknights in the week of 26 April between 8pm and 5am (workers will be on site from 6pm). In the event of wet weather, this work may need to be rescheduled to the following week. A detour will be in place via Russell Street, and access to properties and businesses north of the railway line will be maintained via Smith Street. Traffic control and signs will be in place.

Detour during closure of Old Bathurst Road for night work, 8pm to 5am during the week of 26 April 2022 (subject to approval).

Temporary traffic changes at Smith Street intersection

As previously notified, temporary traffic changes limiting left-hand turns out of Smith Street are in place. All vehicles over six metres (6m) long must turn right onto Old Bathurst Road from Smith Street. These vehicles can proceed to Russell Street for access to the Great Western Highway or use David Road and Sommerville Circuit to turn right onto Old Bathurst Road (please refer to map over the page). This traffic arrangement is necessary for the safe construction of the new roundabout and is expected to be in place for approximately six weeks, weather permitting.

Work locations during May 2022 and current temporary detour options for vehicles longer than 6m

What else is planned

The following work is planned to occur in May:

- electrical utilities work to provide power supply to the new car park
- footpath, utilities and landscaping work near the new footbridge
- earthworks, drainage work, and removal of excavated material from the car park site
- work for the new roundabout on Old Bathurst Road including stormwater drainage work and new lighting.

Equipment to be used will include excavators, road saw, grader, bulldozers, tipping trucks, jack hammers, concrete mixers, service vehicles, various delivery vehicles, pole installation truck, mobile crane, generators, lighting towers, an elevated work platform and hand tools.

All work is subject to weather, site conditions and COVID restrictions, and may change without notice.

Construction hours

Standard construction hours are 7am to 6pm Monday to Friday and 8am to 1pm Saturdays. Thank you for your patience and understanding while we carry out this important work.

Contact us

We will continue to keep the community informed with regular project updates. More information about the project is available on our website. If you would like to sign up to our project distribution list, please contact us via phone or email and we will email you regular updates.
