

Transport for NSW Hornsby Commuter Car Park

Project Update

Transport for NSW | May 2022

What's planned?

The Hornsby Commuter Car Park on Jersey Street will feature:

- a new at-grade commuter car park with around 140 parking spaces
- entry and exit of the car park from Jersey Street
- additional accessible parking spaces provided
- dedicated pathways connecting to the existing footpath along Jersey Street
- provision for future electric vehicle charging spaces
- Transport Park&Ride infrastructure (Opal operated boom gates)
- CCTV, lighting and wayfinding signs for improved safety and security
- landscaping within the car park.

Our work schedules

We will be on site from **Monday to Friday between 7am and 6pm and between 8am and 1pm on Saturdays**. We will contact you to advise of any work required outside of these hours.

What is happening?

We are continuing our work for the new commuter car park in Hornsby. Construction activities will include:

- survey and investigation of existing services
- demolition of existing car park asphalt
- demolition of existing retaining walls and kerbs
- tree removal
- bulk and detailed excavation
- earthworks
- electrical conduit installation

The equipment used during the work will include vacuum trucks, excavators, surveying equipment and hand tools.

How will our work affect you?

Our work may be noisy at times, and we have put measures in place to reduce the impact of this noise, including turning equipment off when not in use and using non-tonal reversing beepers for trucks used on the site.

Contact us

If you have any questions or would like more on the Hornsby Commuter Car Park, please contact our project team:
