

Killara Station Upgrade

Community notification – October 2022

Transport for NSW is upgrading Killara Station as part of the Transport Access Program (TAP) to make it easier for everyone to access, including people with a disability or limited mobility, parents/carers with prams and customers with luggage.

Work is progressing at the station. During September, we continued internal upgrades to the station platform building, including carpentry, and plumbing activities for the new accessible public toilet. We also completed work on the station's electrical, communications and security systems, as well as the fabrication of the lift shafts.

View of Lift 1 on Werona Avenue from footbridge.

Lift shaft painted and formwork completed for new footbridge bearings.

Upcoming work in October

Construction work will continue throughout October and includes:

- ongoing work on the station building and toilets
- backfilling the excavation area for the new lift on Culworth Avenue
- commencement of a new accessible footpath on Culworth Avenue
- lighting upgrades, stormwater drainage, canopy, and pit installation work on the station platform
- blasting and painting activities on the footbridge.

Equipment to be used includes excavators, concrete and delivery trucks and powered hand tools. Some of this work was planned to occur earlier in the year, however due to unforeseen impacts, such as wet weather and site conditions, these activities have been carried over to October.

Weekend and night work

From **10pm Friday 7 October** until **2am Monday 10 October**, work will be carried out continuously at Killara Station.

The activities will be taking place during a planned Sydney Trains track shutdown, when the station is closed, and trains will not be running.

For the safety of our workers, pedestrians and motorists, traffic control will be in place on Culworth Avenue and Werona Avenue from **7am Tuesday 4 October** until **2am Monday 10 October**. Please follow the temporary signs and traffic controller's directions.

Some of this work will be noisy. Equipment will be positioned as far away from residential areas as possible with regular respite periods during noisy work.

At night, staff members will be present on site, to ensure that site safety is maintained outside of our standard construction hours. We apologise for any inconvenience caused by this work and thank you for your understanding. Any impacted residents will be contacting individually.

Footbridge and footpath closure

Due to a recent opportunity available from an extended seven day closure of the T1 North Shore Line, we will be carrying out a significant amount of work during the first week of October.

To allow for this work to take place, the footbridge and nearby footpaths will be closed from **7am Tuesday 4 October to 2am Monday 10 October**. Signage will be in place to direct pedestrians to alternate routes to rail replacement services at Lorne Avenue until the work is completed.

We acknowledge this closure will be disruptive, however carrying out this work now allows us to reduce the number of closures of the bridge in the future.

Train services on the North Shore Line will not be running from Monday 3 October to Friday 7 October due to a scheduled rail possession, please visit [transportnsw.info](https://transport.nsw.gov.au) to plan your journey.

We thank the community for their patience while we carry out this important work.

Bus stop relocation

During October the existing bus shelter will be demolished to facilitate the construction of a new compliant shelter. Temporary bus stops will be installed, and signage will be in place to direct passengers.

Construction hours

Standard construction hours are **7am to 6pm, Monday to Friday** and **8am to 1pm, Saturdays**.

Have your say

If you have any questions or would like more information, please contact our project team:
