

Transport Access Program

Normanhurst Station Upgrade

Transport for NSW | September 2022

The Normanhurst Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with a disability, limited mobility, parents / carers with prams, and customers with luggage.

What's next at Normanhurst?

Throughout September, work will include:

- fit-out of new lifts
- installing communications cables
- installing CCTV around the station precinct
- upgrading the station entrances on Denman Parade and Malsbury Road
- landscaping on Denman Parade and Malsbury Road.

Upcoming work in September

Work will continue Monday to Friday from 7am until 6pm, and from 8am until 1pm on Saturdays.

We have scheduled weekend work from **6am Saturday 24 September to 10pm Sunday 25 September**, weather permitting, to remove a portion of the hoarding and scaffolding around the lift on Denman Parade.

During this period, the station will be open.

Station entrance on Malsbury Road

We are continuing to upgrade the entrance to the station on Malsbury Road. This work has taken longer than planned due to site conditions, and we thank you for your patience.

Customers can continue to access the station via the adjacent temporary entrance.

Footpath work on Malsbury Road

In September, the footpath on Malsbury Road next to the station will be temporarily closed to allow for upgrade work.

During this period, a temporary footpath (next to the existing footpath) will be established, and traffic control and signage will be in place to provide directions around the work area.

Footpath on Denman Parade

The footpath on Denman Parade next to the rail corridor will be closed between the station entrance and Edwards Road from **Monday 5 September to Friday 7 October** to allow for landscaping to be carried out at the entrance to the station.

During this period, the nearby footpath will open, with traffic control and signage in place to provide directions to pedestrians. This detour will add around 400 metres and four minutes to travel time.

How this work may affect you

Our work throughout September will use a range of equipment including excavators, vacuum trucks, road saws, tipper trucks, flatbed trucks, tilt trays, concrete trucks and pumps, elevated working platforms, lighting towers, dump trucks, jackhammers, work vehicles, augers, grinders, chain saws, chippers, cranes, and various hand and power tools.

Our work will be noisy at times. Where possible, measures will be implemented to reduce noise

and dust associated with these works, including adding shade cloth mesh to fencing, turning off equipment when not in use, placing equipment as far away as possible from properties and using non-tonal reversing beepers.

Changes to scheduled work

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be significant changes to the construction program.

Please register for project updates so that we can keep you informed about our work. If you require an alternative method of contact, please do not hesitate to let us know.
