

Transport Access Program

Point Clare Station Upgrade Construction Update - 17 June 2022

Station underpass remains closed – shuttle bus operating

Due to unforeseen ground conditions, the station underpass will remain temporarily closed **until 6pm on Thursday 23 June 2022**, weather permitting. This will allow further construction work to upgrade the underpass and lift entries on both sides of the station.

A free shuttle bus will provide access between the Brisbane Waters Drive and Kurrawa Avenue sides of the station while the station underpass remains closed. Traffic control and signage will be in place to help with all temporary changes.

Station underpass - weekend work 18 and 19 June

Work within the underpass will be carried out between **7am and 6pm on Saturday 18 and Sunday 19 June**. Equipment to be used may include concrete trucks, concrete pumps, excavators, mobile lighting, power and hand tools. We will do everything we can to reduce impacts to nearby residents.

The free shuttle bus will be operating during the weekend work.

Traffic control and signage will be in place to help with all temporary changes.

Standard construction hours

Standard construction hours are from **7am to 6pm Monday to Friday** and **8am to 1pm Saturdays**, excluding public holidays.
