

Transport for NSW

# Redfern Station Upgrade

## New Southern Concourse

Transport for NSW | November 2022

### What happened in October and what is planned next?

During October, work continued on the new bridge with the installation of the canopy for the new station entrance in Marian Street, and on Marian and Little Eveleigh streets.

Throughout November, work will continue on the New Southern Concourse, new station entrances and shared zones in Little Eveleigh and Marian streets.

Our standard construction hours are 7am to 6pm Monday to Friday and 8am to 6pm Saturday.

Due to unforeseen events such as weather, some work may run slightly past 6pm, however these activities are not expected to be noisy.

### Activities planned outside standard construction hours?

Electrical work, delivery of plant and equipment, installation and pre-assembly of bridge components including steelwork, stairs, lifts, canopies, roof panels and screens will occur during the following times.

- **2am Saturday 12 to 2am Monday 14 November**
- **2am Saturday 19 to 2am Monday 21 November**

Pedestrian access to Platform 10 will be closed **2am Saturday 19 to 2am Monday 21 November.**

During these times, traffic control and detour signs will be in place to direct pedestrians via Gibbons Street.

Material and equipment removal, deliveries, concrete pouring, relocation of electrical components and testing may also occur up to three nights per week.

These work activities are not expected to be noisy.

### Why activities are planned outside standard construction hours?

Night work is required to ensure the safety of workers, pedestrians and motorists, and to minimise impacts to traffic.

Sometimes out of hours work can be noisy. A noise assessment is undertaken prior to the work and information provided to impacted residents closer to the date.

### Station area and platforms

During November, work will continue at and around the station area and on platforms. This includes:

- fit out of the lift shafts, stairs, and bridge
- electrical work, including service installation
- concreting
- installation of steel parts across the bridge and platforms

- roofing across the bridge and platform canopies.

Behind Platform 1 rock breaking, excavation, concreting, drilling, material removal, and the installation of canopy parts, stairs and a lift shaft will occur.

## Little Eveleigh Street

Work will continue during standard construction hours in the stage two construction area. This work includes:

- underground services exploration
- relocation of existing services
- installation of underground conduits and communication pits
- roadway and footpath excavation including removal of existing asphalt, concrete and kerbs
- backfilling and concreting
- service and stormwater installation and relocation
- kerb, drain, bollard, pipe and pavement installation
- Landscaping
- tree and tree root investigation
- tree and tree stump removal.

We would like to thank the community for their continued patience and support as the new shared zone is constructed.

Work will also continue at 125-127 Little Eveleigh Street including the removal of materials, installation of external scaffolding, concreting, hammering, service installation and testing, and the installation of steel beams and columns.

A crane will operate behind Platform 1 to remove and deliver material and equipment into the building.

From **7am Monday 7 to 5pm Friday 9 December**, the Sydney Trains gate/driveway at the end of Little Eveleigh Street will be closed. Entry to this area will be via Carriageworks Way. We will contact directly impacted stakeholders about this work.

## Ivy Street

From **Monday 7 November**, work to widen the footpath in Ivy Street will commence. **The street will be temporarily closed to vehicles and parking will be temporarily removed.** The street will remain open for pedestrians and cyclists on the dedicated cycle path. Signage, barriers and traffic controllers will be in place to safely direct vehicles during construction.

Work on Ivy Street includes installing barriers and fencing for the exclusion zone, temporary removal of a garden bed, excavation work and exploration of underground services. We will contact directly impacted stakeholders about this work.

Please refer to the map overleaf for more information.

## Marian Street

Work in the Marian Street compound includes the assembly of bridge components, excavation, fit out, tiling, painting and cladding installation for the electrical building, and service connections.

The canopy for the new station entrance and associated steel parts will also be installed within the Marian Street compound area. Cranes will operate within the compound to assist with this work.

Work will also continue on Marian Street during standard construction hours for the new shared zone.

This work includes service, stormwater and drainage installation, pavement sealing and completion, and landscaping.

**From Monday 14 to Friday 18 November a temporary road closure on Rosehill and Marian streets and removal of five parking spaces on Cornwallis Street** will be in place to allow the shared zone paving to be sealed (subject to weather).

Please refer to the map overleaf for more information.

As this work is weather dependent, we will keep the community updated should the dates change.

If you need further information regarding the work program for Little Eveleigh, Ivy or Marian streets, please call **1800 684 490** or email **projects@transport.nsw.gov.au**.

## Where will work take place?

Project and work areas include the rail corridor, at our site compounds at North Eveleigh and on Little Eveleigh, Lawson, Wilson, and Marian streets. The site access points are at Newtown, Macdonaldtown, Eveleigh, and Erskineville.

## Upcoming changes to parking

Parking will be temporarily removed on surrounding streets for service searching and the

delivery of plant and equipment to our site compounds.

- **Rosehill Street:** Up to five parking spaces will be temporarily unavailable **from Tuesday 1 to Wednesday 30 November.**
- **Cornwallis Street:** Up to five parking spaces will be temporarily unavailable **from Monday 14 to Friday 18 November**

Please refer to the map overleaf for more information.

## What you may notice

Equipment to be used during November include:

- cranes
- elevated work platforms
- access equipment
- flatbed crane trucks
- excavators
- dump trucks and tipper trucks
- core hole drills
- compactors
- forklifts
- concrete trucks and concrete pumps
- watercarts
- chainsaws
- lighting towers
- generators
- tree stump grinders
- mulchers
- work vehicles
- handheld power tools.

At times, the use of louder equipment may be needed. These include:

- power saws
- grinders
- jackhammers
- rollers
- rattle guns
- vacuum trucks
- rock hammers or breakers
- piling rigs.

The use of this equipment can cause vibration and may be noticeable to nearby residents. We will minimise noise and vibration impacts by turning off equipment when not in use and where possible, use noise absorbing blankets.

A real-time environmental management system is in place to ensure noise, vibration and dust levels are within our project requirements.

For more information on how we manage our noise and vibration impacts, please refer to the Construction Noise and Vibration Management Plan under the 'Management Plans' section on the project webpage ([transport.nsw.gov.au/redfern](http://transport.nsw.gov.au/redfern)).

## How are we staying safe?

We continue to deliver projects across NSW while ensuring the safety of staff and the community.

All activities undertaken adhere to COVID safe practices and comply with current NSW Health COVID-19 Public Health Orders and restrictions.

### November 2022

Privacy Transport for NSW (TfNSW) is subject to the Privacy and Personal Information Protection Act 1998 ("PPIP Act") which requires that we comply with the Information Privacy Principles set out in the PPIP Act. All information in correspondence is collected for the sole purpose of assisting in the delivery of this project. The information received, including names and addresses of respondents, may be published in subsequent documents unless a clear indication is given in the correspondence that all or part of that information is not to be published. Otherwise we will only disclose your personal information, without your consent, if authorised by the law. Your personal information will be held by us at 27 Argyle Street, Parramatta. You have the right to access and correct the information if you believe that it is incorrect.

## Temporary parking and access changes in November

Below: Parking changes on Marian Street to enable access to the Marian Street compound and the completion of the shared zone.

Below: Changes to Ivy Street and vehicle access to accommodate the widening of the footpath.

### Key

- Temporary removal of parking spaces on Rosehill Street from Tuesday 1 to Wednesday 30 November
- Temporary removal of parking spaces on Cornwallis Street from Monday 14 to Friday 18 November
- Temporary road closure on Rosehill and Marian Streets between Margaret and Cornwallis Streets from Monday 14 to Friday 18 November
- Work area on Marian Street
- Footpath open on Marian Street
- Detour on Margaret Street
