

# Schofields Commuter Car Park

May 2022

## Project update

Transport for NSW is delivering approximately 700 additional commuter parking spaces at Schofields to provide the community with more convenient access to public transport and reduce congestion on our roads. The car park is expected to be open to commuters in mid-2022.

## Upcoming work

Throughout May 2022, we will be continuing our work at the Schofields Commuter Car Park work site. Our work will include:

- delivering and removing materials using plant and equipment
- adjusting site fencing and amenities
- installing services within the car park
- asphalt surfacing
- kerb, gutter and footpath construction
- line marking, CCTV, lighting and wayfinding installation
- retaining wall construction
- landscape gardening.

During May work will also continue in areas outside of the Schofields Commuter Car Park work site, including:

- converting general car parking spaces into accessible parking spaces in the existing Bridge Street car park at Schofields Station
- relocating the pedestrian crossing across Schofields Road, between Railway Terrace and Veron Road.

## Our work schedule

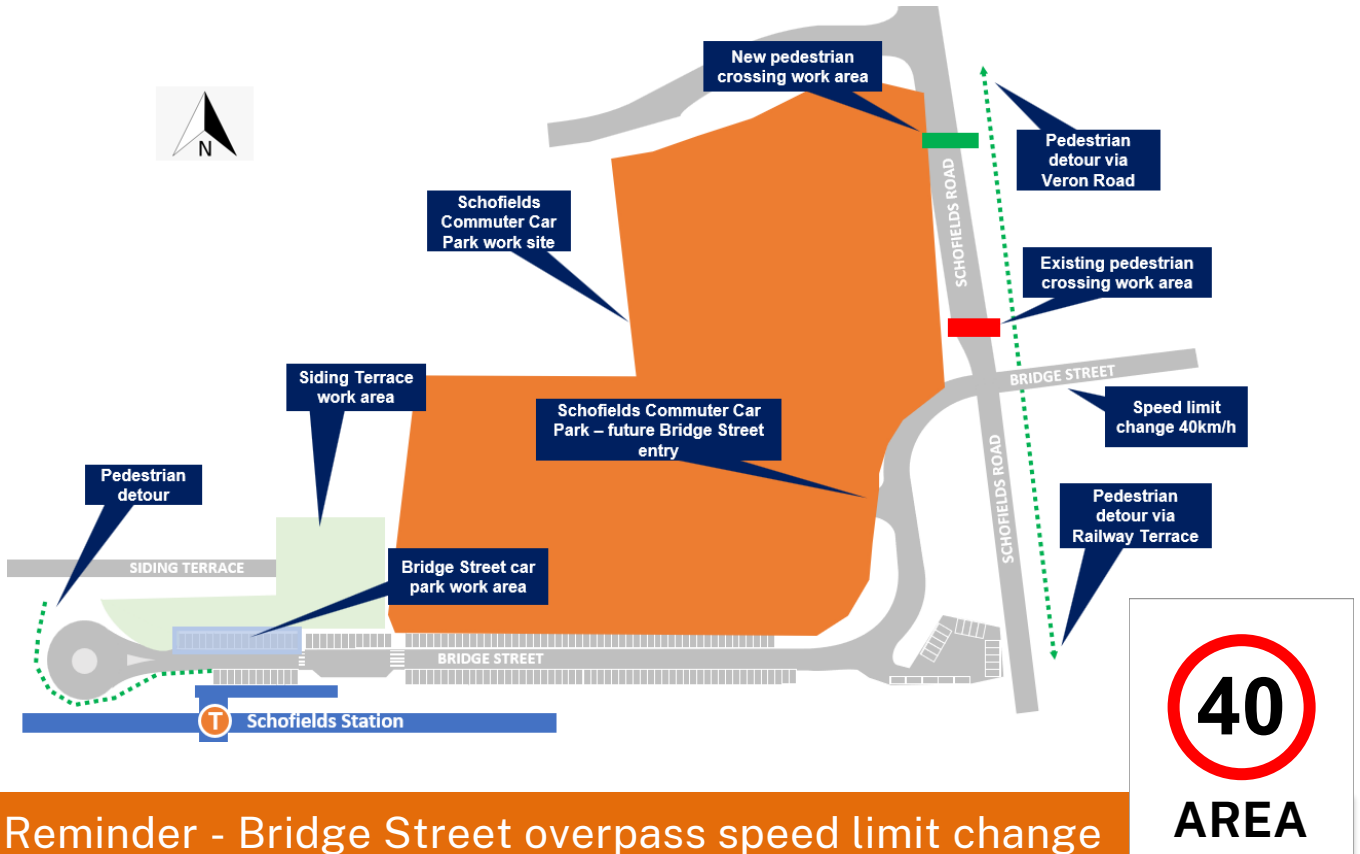

Our work hours will be between **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**, weather and site conditions permitting. If any additional work is required outside of these hours, the community will be notified in advance.

## How will the work affect you?

Our work may be noisy at times. We will make every effort to lessen the disturbance, including turning off vehicles and equipment when not in use and using non-tonal reversing beepers on vehicles. You may notice more construction vehicles and dust. We will be monitoring these activities and where possible, put dust control measures in place.

There will be temporary lane closures and pedestrian detours, however traffic controllers and signs will be in place to maintain two-way traffic and help guide motorists and pedestrians through the area. For your safety, please follow the signs and the directions of traffic controllers.

## Map of work area

## Reminder - Bridge Street overpass speed limit change

To provide safe access into the Schofields Commuter Car Park, from 15 April 2022, the speed limit was reduced from 50km/h to **40km/h** on the overpass section of Bridge Street. This 200m stretch of road extends over Schofields Road toward the future Bridge Street car park entry and Schofields train station.
