

Projects will be evaluated against the following success indicators:

Extract from Project Control Document: Table 6 – Streets as Shared Spaces Core Indicators

Indicator	Measure	Evidence	Relevant objective/s
Additional street trees	Quantity	Photos and/or video footage (before/after)	1
Additional planting at footway level	Quantity - excluding trees	Photos and/or video footage (before/after)	1
Additional public art	Quantity	Photos and/or video footage (before/after)	1
Creative worker employment opportunities	Quantity of full-time equivalent roles	Project employment records	1
Project partners engaged	Quantity	Letters of support	1
Additional lighting	Quantity	Photo and/or video footage (before/after)	2
Additional public space created or made accessible	Area in m2	Photos and/or video footage (before/after)	2
Additional length of clear continuous walking space	Distance in metres	Photos and/or video footage (before/after)	2,3
Additional length of clear continuous cycling space	Distance in metres	Photos and/or video footage (before/after)	2,3
Quantity of road space reallocated	Area in m2	Photos and/or video footage (before/after)	4
Total traffic speed reduction	Speed in km/h	Self-reported	4
Pedestrians	Quantity	Pedestrian counts (before/after)	4,5
Cyclists	Quantity	Cyclist counts (before/after)	4,5
Viable long-term opportunities identified	Quantity Description	Self-reported	6
Timely completion of project	Quantity of days ahead or behind schedule	Self-reported	7
Number of traffic, pedestrian or cyclist incidents	Quantity	Self-reported	8
Employment opportunities – project delivery	Quantity of full-time equivalent roles	Project employment records	
Employment opportunities – local business	Quantity of full-time equivalent roles	Local business anecdotal reporting
