

Transport Access Program

Towradgi Station Upgrade

Community notification June/July 2022

The NSW Government is improving accessibility at Towradgi Station. This upgrade will be delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe, and accessible infrastructure.

Work completed last month

Last month, the footbridge started to take shape with precast planks and screening. Due to bad weather on Saturday and Sunday, 21 and 22 May, the full scope of work was not completed. The remaining work will now be carried out in June and July.

Upcoming work

This month, we will be:

- starting to install both lifts
- installing structural steel and aluminium screens on stairs and entry
- starting work on accessible car parking spaces and kiss and ride zone in Weber Crescent
- installing new footpaths to Platform 1 and Platform 2
- working on the new power supply and fit out of the station services equipment room
- refurbishing existing amenities.

This month, we are also preparing for weekend work planned for **Saturday 2 July and Sunday 3 July**. This work will take place during a scheduled Sydney Trains trackwork period when no trains will be running and the station will be closed. Signage will direct customers to alternative transport.

The work being done over this weekend will include:

- installing screen posts and panels
- installing structural steel canopies on Platform 1 and Platform 2
- resurfacing sections of Platform 1 and Platform 2
- finalising power and communications equipment.

Equipment to be used includes delivery and dump trucks, excavators, crane, concrete trucks and pumps, compaction equipment and hand tools.

Out-of-hours work will be required between **2am Saturday 2 July and 10pm Sunday 3 July**. This work may generate higher than normal levels of noise. Respite vouchers will be offered to residents immediately surrounding the out-of-hours working areas.

Wherever possible, we will take measures to reduce noise, including turning off vehicles and equipment when not in use, monitoring noise, exercising respite periods during work and using non-tonal reversing beepers. We apologise for the inconvenience and thank you for your patience while this work is carried out.

All work is dependent on weather and site conditions and is subject to change.
