

Transport for NSW

Transport Access Program

Thornleigh Station Upgrade

Transport for NSW | October 2022

The Thornleigh Station Upgrade is part of the Transport Access Program, a NSW Government initiative to provide a station that is accessible to people with a disability, limited mobility, parents / carers with prams, and customers with luggage.

What's next at Thornleigh?

Throughout October, our work will include:

- new lift fit outs
- ongoing work on the new stairs and ramp within Benowie Walkway
- landscaping and pavement work on The Esplanade, including upgrading the existing bus shelter
- vegetation clearing and tree removal on Railway Parade.

Work schedule

Our day work hours remain as **Monday to Friday from 7am to 6pm**, and **Saturdays from 8am to 1pm**.

We have scheduled weekend work from **6am Saturday 15 October to 10pm Sunday 16 October** to resurface the station platforms.

Work schedules are subject to change due to permits, weather, and site conditions. Further notification will be provided should there be significant changes to the construction program.

Station toilets

Due to the extreme weather events and cancellation of power outage permits, the station toilets will remain closed until the end of October.

Parking and traffic impacts

While we continue to complete the landscaping and pavement work on The Esplanade, the following parking and traffic changes will be in place throughout October:

- one accessible car space remains temporarily unavailable to allow for a temporary detour ramp and footpath to be in place around our work area.
- around four parking spaces on the station side of The Esplanade between Wells and Eddy Streets will be temporarily unavailable.
- the existing bus stop on The Esplanade (**Stop ID 212052**), will be relocated 30 metres south, to allow for the removal of the existing bus shelter and landscaping and pavement work.

Railway Parade

In October, we will be carrying out site investigations, vegetation and weed clearing. Temporary parking removal will be required to facilitate this work.

Further information on this work can be found at www.transport.nsw.gov.au/Thornleigh

How this work may affect you

Our work throughout October will use a range of equipment including excavators, vacuum trucks, road saws, tipper trucks, flatbed trucks, tilt trays, concrete trucks and pumps, elevated working platforms, lighting towers, dump trucks, jackhammers, work vehicles, augers, grinders, chain saws, chippers, cranes, and various hand and power tools.

Our work will be noisy at times. Where possible, measures will be implemented to reduce noise including turning off equipment when not in use, placing equipment as far away as possible from properties and using non-tonal reversing beepers.

Please register for project email updates so that we can keep you informed about our work. If you require an alternative method of contact, please do not hesitate to let us know.
