

Transport Access Program

Waitara Station Upgrade – Project Update August 2022

Pictured: Temporary hoarding erected during the June weekend work to enable construction to continue during standard construction hours.

Upcoming work

Work at the station is progressing well with piling at the new underpass location carried out during July. Work will continue in August and includes:

- piling for the lift and new underpass foundations
- excavation for new lift and stairs
- removal of excavation spoil from the platform
- structural concrete pouring
- minor electrical work around the station precinct.

Equipment to be used includes mobile cranes, forklifts, excavators, concrete trucks and pumps, vacuum trucks, delivery trucks, power tools and hand tools.

Weekend work - Friday 5 to Monday 8 August

Work will be carried out **continuously from 10pm Friday 5 August until 4am Monday 8 August 2022**. For the safety of our customers and workers, this work will take place during a scheduled Sydney Trains trackwork weekend when **trains are not operating and the station is closed**. The work will involve:

- installing foundations next to the tracks
- installing precast concrete below the tracks
- moving equipment using a mobile crane

- concrete work on the platform.

Equipment to be used includes mobile crane, delivery trucks, elevated work platforms, dump trucks, excavators, piling rigs, vacuum trucks, concrete trucks, concrete pumps, mobile lighting towers, jackhammers, compressors, demo saws, power and hand tools.

The equipment will be positioned as far away from residential areas as possible with regular respite periods during noisy work.

The commuter car park will be **temporarily closed** during this work from **10pm Friday 6 August** until **4am Monday 8 August 2022** to enable safe construction work.

Night work continuing throughout August

As it was notified previously, in August night work will be carried out **two consecutive nights per week** (between Monday and Friday) from **1am to 4am**, weather permitting. This work will occur while train services are not operating to ensure the safety of our workers and the community.

Work will involve using a forklift to load materials and equipment on and off the platform. Other equipment includes work utes, task lighting, power and hand tools.

Temporary traffic, access and parking changes

Throughout our upgrade work at the station on occasion there may be temporary traffic and access changes surrounding the station, on Alexandria Parade and in the commuter car park on Waitara Avenue. This may involve a requirement for single lane road closures and/or parking removal to accommodate large vehicles carrying out construction work.

Traffic control and signage will be in place to help pedestrians and motorists with all temporary changes. We will notify nearby residents and businesses in advance of changes to station access.

Construction hours

Standard construction hours are from **7am to 6pm Monday to Friday** and **8am to 1pm Saturdays**, excluding public holidays. We will notify nearby residents and businesses in advance if we need to work outside these times.
