

Transport Access Program

Waitara Station Upgrade – Project Update September 2022

Pictured: Piling work for the new station canopy.

Upcoming work

Work at the station is progressing well with excavation for the new lift and stairs (Waitara Avenue side) and piling for the underpass foundations carried out during August.

Work will continue in September and includes:

- pouring concrete for new structural elements and floor slabs
- continuing excavation for the new lift and stairs
- removal of excavated material (known as 'spoil') from the platform
- minor electrical work around the station precinct.

Equipment to be used includes mobile cranes, forklifts, excavators, concrete trucks and pumps, vacuum trucks, delivery trucks, power tools and hand tools.

During September night work will continue to be carried out over **two consecutive nights per week** (between Monday and Friday) from **1am to 4am**, weather permitting. This work will occur while train services are not operating to ensure the safety of our workers and the community.

Work will involve using a forklift to load materials and equipment on and off the platform. Other equipment includes work utes, task lighting, power and hand tools.

Temporary access, parking and traffic changes

Throughout our upgrade work, there may occasionally be temporary access and traffic changes on Alexandria Parade and in the commuter car park on Waitara Avenue. This may require temporary single lane road closures and/or parking removal to accommodate large vehicles carrying out construction work.

Traffic control and signage will be in place to help pedestrians and motorists with any impacts faced by these changes. We will notify nearby residents and businesses in advance of changes to station access.

Construction hours

Standard construction hours are **7am to 6pm, Monday to Friday** and **8am to 1pm on Saturdays**, excluding public holidays. We will notify nearby residents and businesses in advance if we need to work outside these times.
