Transport for NSW

Transport Access Program

Waitara Station Upgrade

Project Update - Site/geotechnical investigations January 2022

Waitara Station Upgrade will be delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure, especially for people with a disability or limited mobility, parents/carers with prams, and customers with luggage.

As part of the planning process, preliminary investigations are required to inform and progress the project design.

Upcoming night work – 24, 25 and 27 January 2022

Site investigations will be carried out over three nights on Monday 24 January, Tuesday 25 and Thursday 27 January from 9pm to 5am, weather permitting.

The work will take place in the rail corridor during scheduled Sydney Trains track night work, when trains are not running and the **station is closed**.

Work will include **geotechnical drilling**. Service location will take place as a standard safety practice prior to excavation.

Equipment to be used will be geotechnical drilling rig, lighting tower, excavator, and non-powered hand tools.

All equipment will be positioned as far away from residential areas as possible and breaks will be used to provide respite during noisy work.

Please contact 131 500 for the latest information regarding train replacement services.

Keep in touch

We will continue to keep the community informed with regular project notifications and updates on the project website www.transport.nsw.gov.au/waitara

If you would like to be added to the project distribution list, or for more information on the Waitara Station Upgrade, please contact us on **1800 684 490** or email projects@transport.nsw.gov.au
