

# Badgerys Creek and Bringelly areas

## Update on road works February 2022

Transport for NSW is carrying out road enabling works to support the delivery of the Sydney Metro – Western Sydney Airport. The new metro rail will become the transport spine for Greater Western Sydney, connecting communities and travellers with the new Western Sydney International (Nancy-Bird Walton) Airport and the growing region. The city-shaping project will deliver new stations at the Western Sydney Aerotropolis, Western Sydney International, Luddenham, Orchard Hills and St Marys. The 23 kilometre new railway is planned to open at the same time as passenger services start at the airport.

There are four projects underway at Badgerys Creek and Bringelly that will provide road access to future Sydney Metro construction sites and a services facility, and improve traffic flow and safety for construction vehicles and general traffic **(see map below)**.

## What happens next

### 1 Elizabeth Drive and Badgerys Creek Road roundabout extension

Works are planned to start in **February 2022** and include:

- establishing site fencing and traffic barriers
- setting-up erosion and sediment controls, and carrying out surveys and site investigations
- grubbing and clearing of vegetation, demolition, excavation and earthworks
- stormwater adjustments and installing new drainage
- construction of the road off the roundabout
- installing signage, line marking, landscaping, fencing and a gate

**Night works** are proposed to take place at this site for up to **21 nights** between **Monday 14 February and Monday 14 March 2022**.

**Equipment used** will include: road-saws, jackhammers, trucks, rollers, tippers, earthmoving vehicles, light construction vehicles, light towers, cranes, milling and paving machines, excavators and generators.

### 2 Longleys Road and Pitt Street and a new link road

Works in this area have been rescheduled and are planned to start in **February 2022** and include:

- establishing a site compound with fencing and a site office
- setting-up erosion and sediment controls, and carrying out surveys and site investigations
- grubbing and clearing of vegetation, excavation, stock piling and earthworks
- dam dewatering
- utility adjustments and relocation
- road construction
- installing signage and line marking

**Night works** are being rescheduled to a later date. We will provide new dates before night works commence.

**Equipment used** will include: road-saws, jackhammers, trucks, rollers, tippers, graders and earth moving vehicles, light construction vehicles, light towers, cranes, milling and paving machines, excavators and generators.

### 3 Badgerys Creek Road new roundabout and access road

Works are continuing in **February 2022** and include:

- installing temporary concrete safety barriers on the road shoulder
- grubbing and clearing of existing vegetation, and topsoil removal
- adjustments to the road batter (the area connecting the roadside with surrounding land)
- new kerb, gutter and roundabout construction
- construction of a new access road
- installing new stormwater drainage
- adjusting existing and installing new utilities
- re-instatement of a driveway

**Night works** are planned to take place at this site for up to **5 nights** a week between **Monday 14 February and Thursday 31 March 2022**. Work will include installing traffic barriers, delivering construction materials and utilities relocation.

**Equipment used** will include: road-saws, jackhammers, trucks, tippers, earthmoving vehicles, rollers, graders and earth moving vehicles, light construction vehicles, light towers, cranes, milling and paving machines, excavators and generators.

#### **4 New driveway for the Bringelly Services Facility, Derwent Road**

Works are planned to start in **February 2022** and include:

- survey and site investigation
- pavement construction
- drainage works under driveway entrances
- concreting and resurfacing of driveways from the road to the property boundaries
- utility adjustment and drainage works

**Night works** are being rescheduled for a later date, we will liaise directly with affected residents on the new dates and provide information before night works commence.

**Equipment used** will include: road-saws, jackhammers, trucks, tippers, earthmoving vehicles, light construction vehicles, light towers, cranes, milling and paving machines, excavators, bob-cats and generators.

## What to expect

There will be temporary traffic changes during our work to ensure that work zones are safe. This may affect travel times. Please keep to speed limits, and follow signs and traffic controllers' directions.

- Work will generate some noise and dust and our team will minimise impacts where possible.
- There will be an increase of light and construction vehicles near the work sites.
- Minor traffic disruptions will occur with traffic control measures in place.
- Access to driveways and properties will be maintained however there may be some minor interruptions due to work. We will liaise with affected property owners and work to minimise impacts prior to any property access changes.

For traffic updates, you can call 132 701, visit [livetraffic.com](http://livetraffic.com) or download the Live Traffic NSW App.

## Our work schedule

Our standard work hours will be **Monday to Sunday from 7am to 6pm**. On weekends, high noise activities will only take place on **Saturdays between 8am and 1pm**.

Our night work hours will be **Sunday to Friday nights from 8pm to 5am**. We will finish high noise works by midnight whenever possible.

These works will be undertaken in accordance with Public Health Orders and a COVIDSafe plan is in place. Please note the weather and site conditions may impact our planned dates of work and require some scheduling flexibility or additional days' work. We will continue to keep the community informed of construction plans and provide a project update in March 2022.
