

# Commuter Car Park Program: Emu Plains

## Community Notification | August 2022

### Project Overview

Transport for NSW is constructing a new commuter car park at Emu Plains Station to provide the community with more convenient access to public transport and reduce congestion on our roads. The project is jointly funded by the Australian and NSW Governments. The car park, which will be accessed via a new roundabout at the intersection of Old Bathurst Road and Smith Street, will provide approximately 750 additional commuter parking spaces.

### Progress update and upcoming work

Work on the new commuter car park including construction of the sandstone retaining walls for the flood retention channel is progressing. During the early July rainfall, the flood retention channel captured over five megalitres of water proving to perform well during heavy rain events.

The following work is planned to occur in August:

- utility services work, completing base layer work and asphaltting in the car park site and for the new roundabout
- continued construction of sandstone retaining walls and kerbing in the car park
- civil work along both sides of Old Bathurst Road and installing kerbs for the new roundabout

Work along Old Bathurst Road will require ongoing traffic management. Traffic controllers and signage will be in place for the safety of motorists and workers as required.

From mid to late August, work will occur on Old Bathurst Road for the protection and diversion of existing underground utility services, which may require temporary road closures and/or night work (subject to approval). Further notification will be provided to nearby residents and businesses prior to this work starting.

Equipment to be used will include excavators, road saw, grader, bulldozers, rollers and compactors, tipping trucks, jack hammers, concrete mixers, service vehicles, various delivery vehicles, pole installation truck, mobile crane, generators, lighting towers for any nightwork, an elevated work platform and hand tools.

### Construction hours

Standard construction hours are 7am to 6pm Monday to Friday and 8am to 1pm Saturdays. Work outside of these hours may occur from mid to late August (subject to approval). Further notification will be provided to affected residents and businesses prior to this work starting.

All work is dependent on weather, site conditions and COVID restrictions and may be varied without additional notice. Thank you for your patience and understanding while we carry out this important work.

## Keeping you up to date

More information is available on our website [transport.nsw.gov.au/emuplains](https://transport.nsw.gov.au/emuplains). If you would like to sign up to our project distribution list, please contact us on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au) and we will email you regular updates.

For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.

## Translating and interpreting service

If you need help understanding this information, please contact the Translating and Interpreting Service on **131 450** and ask them to call us on **1800 684 490**.
