

Gipps Street, Claremont Meadows

Completion of works February 2022

Transport for NSW (TfNSW) has completed upgrades to the Gipps Street intersection at Sunflower Drive North and the existing east leg driveway to access the future Sydney Metro – Western Sydney Airport services facility at Claremont Meadows. We would like to thank the community for their patience during construction.

The Sydney Metro – Western Sydney Airport project is the new metro railway line which will service Greater Western Sydney and the new Western Sydney International (Nancy-Bird Walton) Airport. The city-shaping project will deliver new stations at St Marys, Orchard Hills, Luddenham, Airport Business Park, Airport Terminal and the Western Sydney Aerotropolis. The 23 kilometre new railway is planned to open at the same time as passenger services start at the airport.

Works completed

The upgraded intersection and newly constructed driveway is now complete. Our work included:

- a new and upgraded pavement and driveway to access the services facility
- new signage and line marking, and upgrades to the existing traffic control signal
- relocation of utilities and stormwater drainage improvements
- new street landscaping and pedestrian footpath
- new street lighting

Traffic changes

The new Gipps Street east leg driveway has been designed to provide initial access for construction vehicles. Public access is temporarily prohibited from both directions into the new driveway and please refer to road signage for further information. Advice will be provided at a later date regarding when this driveway can be used by the public.

Community benefits

The community benefits of this project include:

- improved and safer access to the eastern side of Gipps Street for construction vehicles
- new road infrastructure to cater for future traffic demand
