

Transport Access Program

Gunnedah Train Station Upgrade

Project update

May 2022

The NSW Government is improving accessibility at Gunnedah Station

The upgrade of Gunnedah train station will provide a facility that is accessible to those with a disability, limited mobility, and parents/carers with prams and customers with luggage.

Construction is progressing and a number of activities have been completed, which include:

- establishing the site compound, with the installation of temporary fencing, site surveying and service locating work
- demolition of existing facilities, including toilet amenities, waiting room, and internal concrete slabs
- removal of external asphalt surfaces for regrading and surfacing works to be carried out
- construction of new entry ramp into the station waiting room and installation of wall frames.

Construction: New ramp into waiting room entry

Upcoming work

Construction activities at the station will continue over the next two months, including:

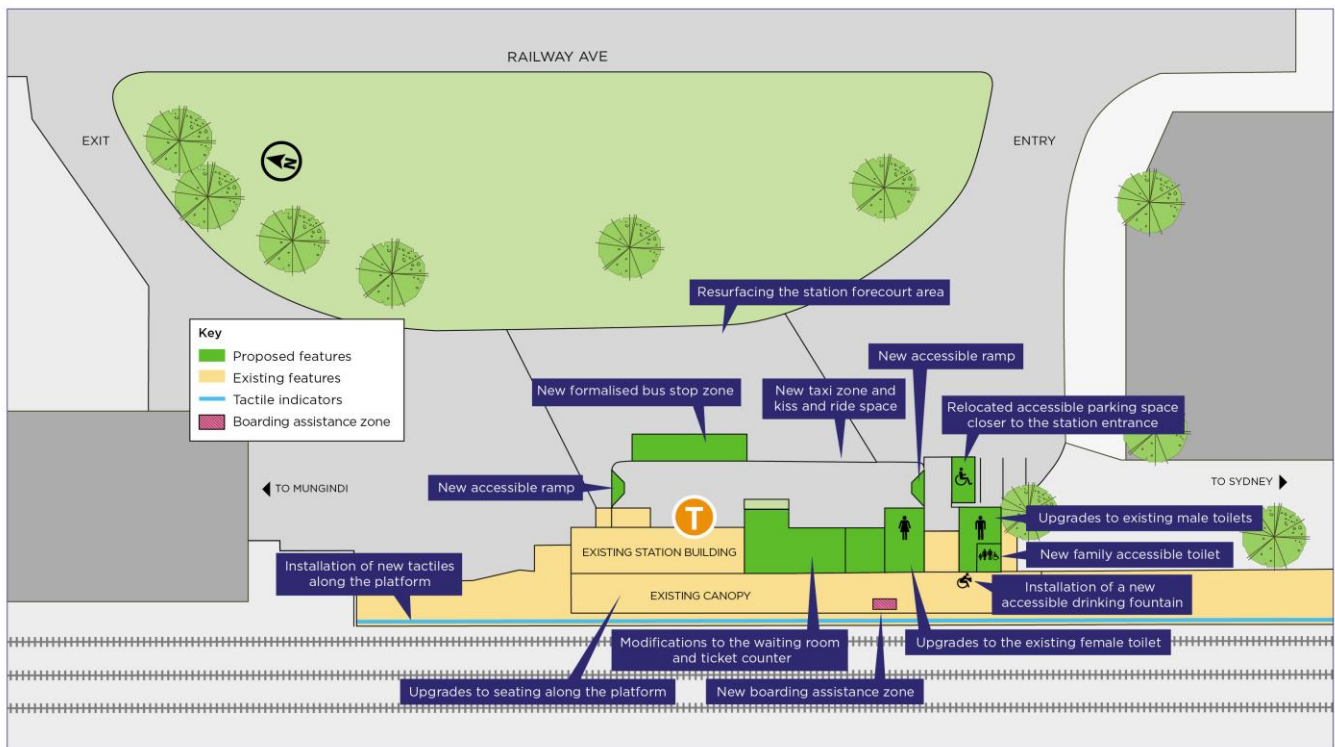

- installation of new male, female and ambulant amenities
- reconstruction of the waiting room including timber floors, joinery and bench seats
- re-asphalting the driveway and carpark
- landscaping works.

Due to unforeseen construction issues, ongoing weather and COVID-19 impacts, we are experiencing some delays in completing the Gunnedah Station upgrade. The upgrade is now expected to be finished by late June 2022, weather permitting.

Planned works for Gunnedah Station, subject to change.

Construction hours

Work will be carried out from Monday to Friday between 7am and 6pm and Saturday from 8am to 1pm.

Work will continue over the next two months, with completion expected by the end of June 2022, weather permitting.

Equipment to be used during this work includes small excavators, surveying equipment, delivery/concrete trucks, concrete pumps, construction trucks, power and hand tools.

Traffic control and signage will be in place to help pedestrians and motorists with all temporary changes.

Thank you for your patience and cooperation while this upgrade is being completed.
