

# Menangle Road Upgrade

## Notification of geotechnical and utility investigations | 6 December 2022 – 5 March 2023

Investigations are underway to inform a potential upgrade to Menangle Road. The upgrade would provide a 7.2km four-lane divided road between Tindall Street, Campbelltown and Cummins Road, Menangle Park.

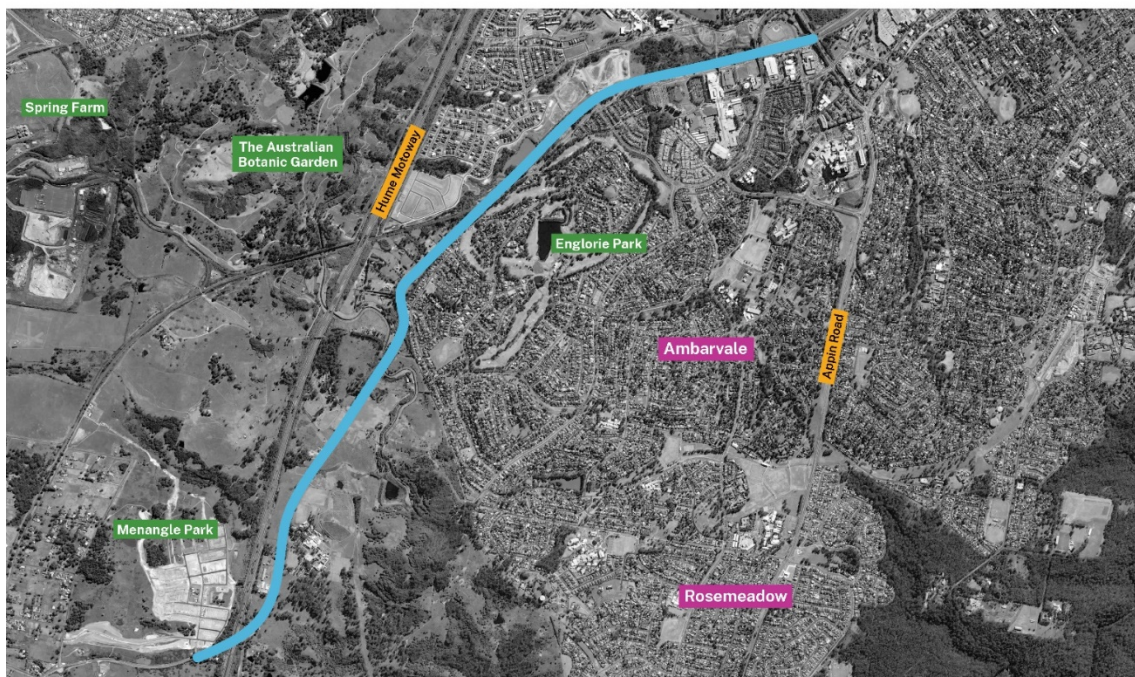

Between **Tuesday 6 December 2022 and Sunday 5 March 2023**, geotechnical and utility investigations are required to determine the underlying ground conditions to inform the design process. Work will pause during the Christmas shutdown period between Saturday 24 December 2022 and Sunday 8 January 2023.

Works would be undertaken during standard working hours which are **7am to 6pm, Monday to Friday, 8am to 1pm on Saturdays**, and no work on public holidays. Due to road authority approvals, some work must be completed out-of-hours on **Monday to Sunday between 8pm and 5am**. Work will include:

### Geotechnical and contamination investigations

- Boreholes and excavation
- Drilling existing pavement and refilling after investigation.
- Test pits

## How will this work affect you?

During the work machinery and equipment, including trucks, excavators, drilling rig, vacuum truck, and traffic control equipment may be used.

This work may be noisy at times. Where possible we will take steps to minimise noise and disruption by:

- Completing drilling and vehicle movements before midnight.
- Undertaking noise monitoring
- Moving machines and equipment away from residences
- Communicating over distance by radio and hand signals
- Turning vehicles and equipment off when not in use.

## Work schedule

We will be working standard construction hours between **7am to 6pm Mondays to Fridays, and 8am to 1pm Saturdays.**

Sundays and night work will also be required between **8pm and 5am**, weather permitting.

During this time there will also be temporary traffic changes on Menangle Road. To minimise impacts to traffic and to ensure the safety of workers and road users, night work will take place on Menangle Road and will involve temporary changes to traffic. These changes will include:

- Temporary lane closures of one to two lanes to enable line marking and barrier placement.
- Temporary speed limit reduction to 40km/h throughout the duration of the night work,

Electronic signage will advise road users of these changes. Please keep to the reduced speed limit and follow the directions of traffic controllers and signs.

For the latest traffic updates, call **132 701**, visit [livetraffic.com](http://livetraffic.com) or download the **Live Traffic NSW App**.
