

# Commuter Car Park Program

## North Rocks

Transport for NSW | May 2022

Transport for NSW is delivering approximately 135 additional commuter car parking spaces on the corner of Barclay Road and Perry Street to provide the community of North Rocks with more convenient access to public transport and reduce congestion on our roads.

The car park is expected to be completed and open to the community by mid-2022.

The North Rocks Commuter Car Park, on the corner of Barclay Road and Perry Street, will feature:

- a new at-grade commuter car park with approximately 135 parking spaces
- accessible parking spaces
- dedicated pathways connecting to the existing footpath on the corner of Barclay Road and Perry Street
- Transport Park&Ride infrastructure (Opal operated boom gates)
- lighting and wayfinding signage for improved safety
- provision for future electric vehicle charging spaces
- landscaping within the car park and fencing.

## What is happening?

In May, construction activities will include:

- excavation and trenching work
- construction of retaining walls
- formwork, steel and concrete placement for new stormwater pits
- installation of stormwater pipes and pits
- formwork, steel and concrete placement for new entry and exit layback and driveway
- relocation of the site compound to the existing commuter car park on Barclay Road
- electrical conduit installations.

Equipment used during the work will include vacuum trucks, excavators, rollers, surveying equipment, a concrete pump, concrete saw, concrete trucks, construction vehicles, compaction tools, delivery and removal trucks and hand tools.

## Our work schedule

We will continue to be on site in May from **Monday to Friday** between **7am and 6pm**, and **Saturdays** between **8am and 1pm**.

We will notify you in advance if work needs to occur outside these hours. We thank you for your patience as we continue to complete this important work.

## How will the work affect you?

We understand that our work may be noisy at times. We will do everything we can to lessen the impact including turning off vehicles and equipment when not in use and using non-tonal reversing beepers.

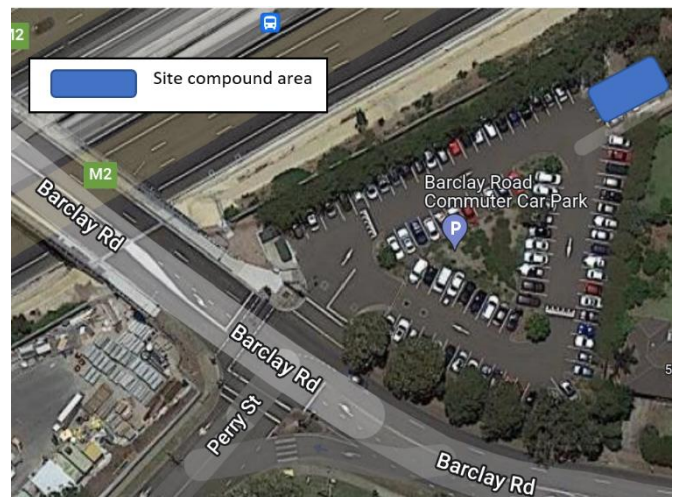

*Construction work progressing at the North*

## Site compound relocation

On **Saturday 7 May 2022** from **7am to 5pm**, we will relocate our site compound from the Perry Street Commuter Car Park to the Barclay Road Commuter Car Park. This is required to allow construction work to progress. If this work cannot take place on this date, it will be rescheduled to **Saturday 14 May 2022** from **7am to 5pm**.

Three car parking spaces and one motorcycle parking space will be **temporarily removed** at the existing Barclay Road Commuter Car Park to facilitate the new compound site sheds. If you have any concerns about the new compound site please contact the project team, as detailed below.
