

Revesby Commuter Car Park

Project Update | May – July 2022

Upcoming construction work

Construction on the Revesby commuter car park extension is progressing well and work is expected to be completed mid-2022. During May, June and July construction activities include:

- Structural strengthening works on the lower levels of the car park
- Concrete columns and slabs for the new car park floors
- Installation of new glazing panels for the eastern lift
- Façade installation for extended floor
- Car Park lighting installation for new floor
- Lift extension to new levels

The equipment used during the work will include concrete trucks, tower crane, vacuum trucks, surveying equipment and hand tools.

Lift closures

From Saturday May 14 until Friday September 30, 2022, lifts 5 and 6 will be closed to allow for the extension of the lifts to progress. The car park stairs will remain open during this work. Please use stairs to access the upper levels of the car park while the lifts are unavailable. If you are travelling with a pram, please use the car park on Marco Avenue while the lift is closed.

Changes to accessible parking spaces

From Saturday May 14 until Friday September 30, 2022, 13 accessible parking spaces will be relocated from level 2A to the Revesby Station car park located on Marco Avenue. Signage will be in place to notify commuters of these changes.

We will endeavour to make parking spaces available as early as possible throughout the construction program and will notify customers of additional parking availability. Please plan your journey ahead of time as it may take longer than usual to find a parking space. If possible, please consider alternative transport options to and from the station or flexible working arrangements during this time.

Our work schedules

We will be on site from **Monday to Friday between 7am and 6pm** and between **8am and 1pm on Saturdays**. We will contact you to advise of any work required outside these hours. Deliveries will be scheduled outside of peak times wherever possible to minimise disruption to pedestrians and motorists.

Evening work

At times throughout May, June and July there may be instances where concrete pours may run late, and workers will be required to be on site from 6pm to 8pm, Monday to Friday.

Non-powered hand tools for concrete finishing work will be in use.
