

Commuter Car Park Program Revesby

Artist's impression of the additional parking at Revesby Station, subject to planning approval and detailed design

More commuter car parking is coming to Revesby Station

Planning is underway to deliver additional commuter car parking spaces at Revesby to provide you with more convenient access to public transport and help ease congestion on our roads.

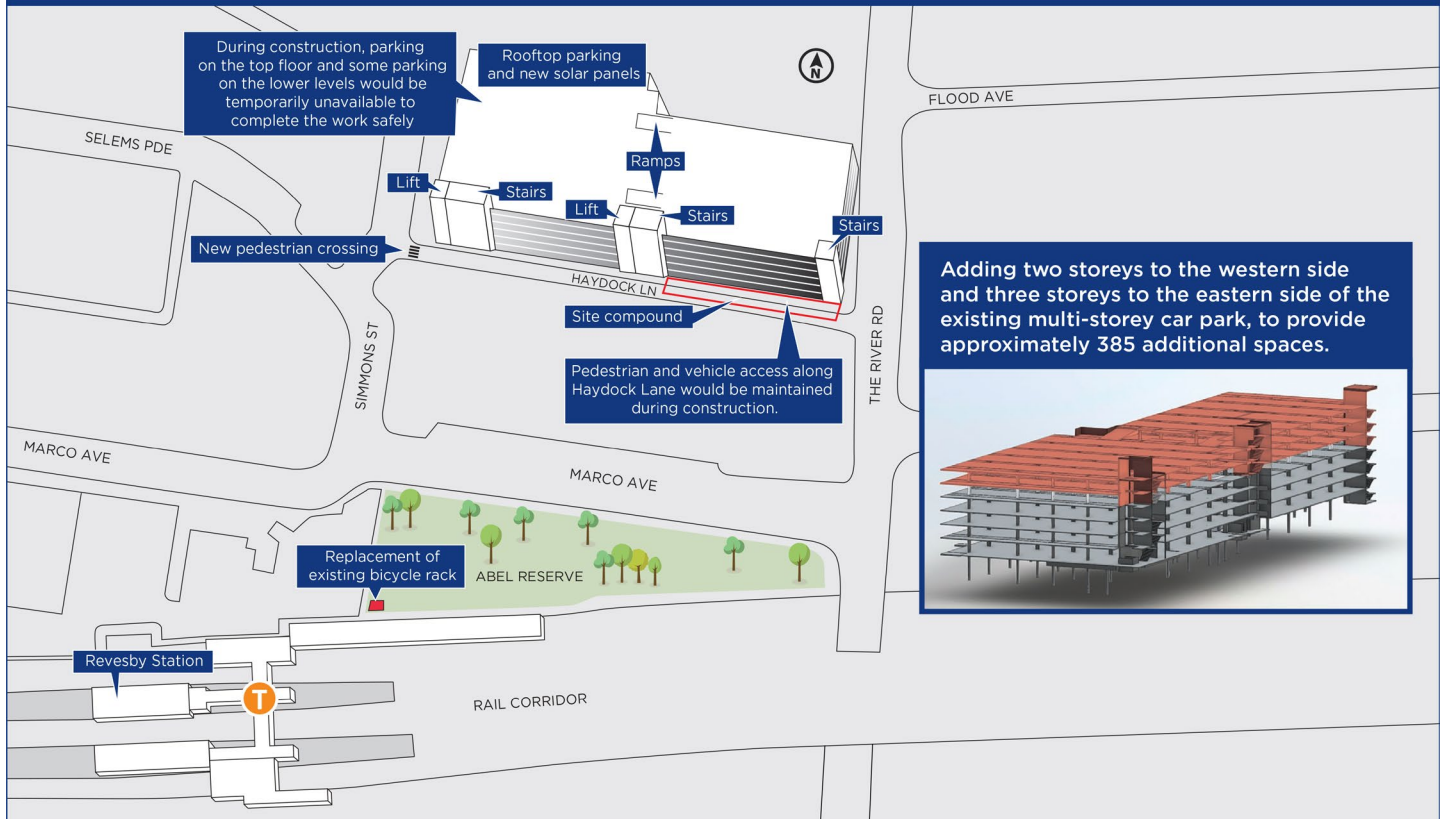

Key features of the proposal include:

- adding two storeys to the western side and three storeys to the eastern side of the existing multi-storey car park, providing approximately 385 additional car spaces
- extension of lifts, stairs and internal ramps to the additional upper levels
- additional accessible parking spaces on level two of the existing car park
- installation of CCTV, lighting and wayfinding signage for improved safety and security
- a new pedestrian crossing on the western end of Haydock Lane
- rooftop solar panels
- replacement of the existing bicycle rack on the northern side of Revesby Station, near the station entrance
- Transport Park&Ride Infrastructure (Opal operated boom gates)
- provision for future electric vehicle charging spaces
- drainage work and landscaping.

To assist with the planning of this project, our team will be undertaking some initial survey work on site during February and March.

The project is jointly funded by the Australian and NSW Governments. Subject to planning approval, construction of the project is planned to begin in coming months and is expected to be completed by early 2022.

Key features of the proposed Revesby Commuter Car Park

Site map of the new commuter car park, subject to planning approval and detailed design

Parking during construction

During construction, the top floor of the existing multi-storey car park would be closed for approximately 12 months in order to complete the work safely. Some parking spaces on the lower floors may also be temporarily unavailable.

Provide your feedback

You can view and provide feedback on the Review of Environmental Factors by completing the online feedback form on our website at transport.nsw.gov.au/revesby, calling **1800 684 490** or emailing projects@transport.nsw.gov.au by **5pm Wednesday 24 February 2021**. Your input will help to inform the planning approval process and will also be considered during the detailed design of the project.

Keeping you up to date

We will continue to keep you informed about the project through notifications to customers, local residents and businesses and frequent updates published on our website.

If you would like to sign up to receive regular project updates via email, please email projects@transport.nsw.gov.au.

Commuter Car Park Program

The Commuter Car Park Program is a NSW Government initiative to provide you with more convenient access to public transport interchanges and help ease congestion on our roads. We have already delivered more than 10,000 commuter car spaces across Sydney since 2011, with another 8,000 on the way.

This document contains important information about public transport projects in your area. If you require the services of an interpreter, please contact the Translating and Interpreting Service on **131 450** and ask them to call Transport for NSW on **1800 684 490**. The interpreter will then assist you with translation.
